JUNE 14—Commencement Day.

ORGANIZATION

BOARD OF VISITORS

JOHN P. THOMAS, ESQ., <i>Chairman</i> -----	Charleston, S. C.
JAMES H. HAMMOND, ESQ.-----	Columbia, S. C.
JAMES G. PADGETT, ESQ.-----	Walterboro, S. C.
A. E. HUTCHISON, ESQ.-----	Rock Hill, S. C.
J. R. WESTMORELAND, ESQ.-----	Pacolet, S. C.
H. D. STILL, ESQ.-----	Blackville, S. C.
F. B. GRIER, ESQ.-----	Greenwood, S. C.

EX-OFFICIO

- HIS EXCELLENCY, THOS. G. McLEOD, Columbia, S. C.
- GEN. JAMES C. DOZIER, Adjutant General, Columbia, S. C.
- HON. JAMES H. HOPE, State Superintendent of Education,
Columbia, S. C.
- HON. T. BOTHWELL BUTLER, Chairman Military Committee,
Senate, Gaffney, S. C.
- HON. J. McH. MAULDIN, Chairman Military Committee, House
of Representatives, Greenville, S. C.

OFFICERS AND FACULTY

COLONEL O. J. BOND, B.S., LL.D.
President.

MILITARY STAFF

MAJOR A. G. GOODWYN, U.S.A.
Commandant of Cadets.

MAJOR J. A. MACK, U.S.A.

MAJOR E. M. TILLER,
Quartermaster.

MAJOR R. S. CATHCART, M.D.,
Surgeon.

CAPTAIN C. L. HAIR,
Adjutant.

CAPTAIN J. B. DAY, U.S.A.

CAPTAIN P. B. ROBINSON, U.S.A.

CAPTAIN D. S. McALISTER,
In Charge Cadet Affairs.

COLLEGE FACULTY

(In Order of Seniority)

- COLONEL O. J. BOND, B.S., LL.D.,
Professor of Mathematics.
- MAJOR ALBERT GALLATIN GOODWYN, U. S. A.,
Professor Military Law and Military History.
- MAJOR HUGH SWINTON MCGILLIVRAY, A.B., PH.D.,
Professor of English.
- MAJOR LOUIS KNOX, B.S., M.S.,
Professor of Chemistry and Biology.
- MAJOR LOUIS SHEPHERD LETELLIER, M.S.,
Professor of Civil Engineering.
- MAJOR NEWLAND FARNSWORTH SMITH, PH.D.,
Professor of Physics.
- MAJOR SMITH JOHN WILLIAMS, A.B., A.M.,
Professor of History.
- MAJOR HAROLD CARTER WINSHIP, A.B., A.M.,
Professor of Modern Languages.
- MAJOR JOHN A. MACK, U. S. A.,
Professor Military Engineering and Gunnery.
- CAPTAIN CLIFTON LECROY HAIR, B.S.,
Associate Professor of Mathematics.
- CAPTAIN CARL FRANCIS MYERS, JR., B.S.,
Assistant Professor of Mathematics.
- CAPTAIN JOHN ANDERSON, C.E.,
Associate Professor of Engineering and Drawing.
- CAPTAIN VIRGIL HOMER DASSEL, A. B.,
Professor of Business Administration.
- CAPTAIN JOHN BRIGGS DAY, U. S. A.,
Professor Motor Transportation and Material.
- CAPTAIN PAUL B. ROBINSON, U. S. A.,
Professor Minor Tactics and Military Topography.
- CAPTAIN DAVID STEVENSON McALISTER, B.S.,
Registrar and Assistant Professor of Physics.

CAPTAIN ALFRED E. DUFOUR, A.B.,
Associate Professor of Modern Languages.

LIEUTENANT MILTON BOONE KENNEDY, A.B., A.M.,
Assistant Professor of English.

LIEUTENANT JAMES KARL COLEMAN, B.S.,
Assistant Professor of History.

LIEUTENANT RALPH MILLEDGE BYRD, B.S., M.S.,
Assistant Professor of Chemistry.

LIEUTENANT BLEDSOE KELLY, A.B., M.A.,
Assistant Professor of Modern Languages.

LIEUTENANT THOMAS GODFREY CAREY, B.S.,
Assistant Professor of Physics.

LIEUTENANT DONALD ERVIN MICHIE, B.S.,
Instructor of English.

LIEUTENANT JOHN PAUL BEATY, B.S.,
Instructor of Mathematics.

MR. ALEXANDER LEOPOLD GEISENHEIMER, A.B.,
Assistant Professor of Economics.

MR. CARL H. METZ,
Director and Instructor of the Band.

MR. J. M. LELAND,
Y.M.C.A. Secretary.

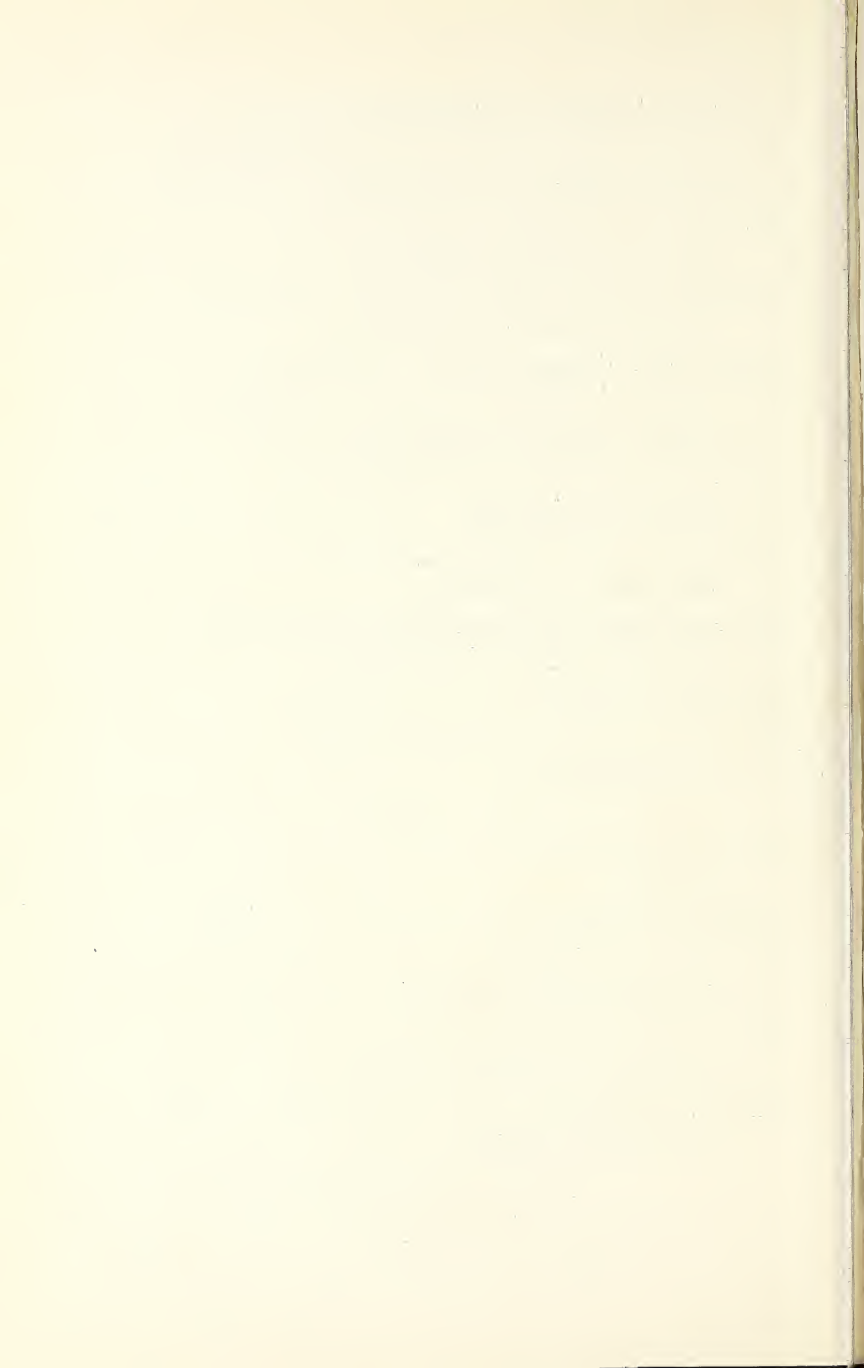

MRS. W. L. GAILLARD,
Librarian.

MISS F. J. GASQUE,
Matron of Hospital.

MRS. F. C. POLHEMUS,
Secretary to the President.

MISS ISABEL A. STONEY,
Secretary to the Quartermaster.

MRS. W. D. AVINGER,
Matron of Mess Hall.

CADETS, SESSION 1925-1926 .

PART II

HISTORICAL SKETCH

PREVIOUS to the year 1841, the State of South Carolina had two depositories for its arms and munitions of war—one known as The Citadel, in the City of Charleston; the other known as The Arsenal, in the City of Columbia. These were guarded by companies of enlisted men, and trained officers, and were maintained at an expense of twenty-four thousand dollars per annum.

It was Governor Richardson who made the suggestion that these garrisons be replaced by young men, who, while serving as guards, should receive military training, and instruction in the practical and mechanical arts. Under the administration of his successor, Governor Hammond, an Act of the Legislature was passed, on December 20, 1842, creating The Citadel and Arsenal Academies.

The Board appointed by the Governor to carry out the purpose of the Act lost no time in performing their duty, and the Faculty of The Citadel was elected on February 23rd following. By the twentieth of March, both The Citadel and The Arsenal were in operation.

In arranging the course of studies for The Citadel, the report of the Board to the General Assembly says:

"The Board has aimed at a system of education at once scientific and practical, and which, if their original design is carried out, will eminently qualify the cadets there taught for almost any station and condition of life.

"During the course, besides the usual branches taught at the primary schools in the State, they will be instructed in the history of South Carolina, modern history, the French language, every department of mathematics, bookkeeping, rhetoric, moral philosophy, architectural and topographical drawing, natural philosophy, chemistry, geology, minerology, botany, civil and military engineering, the constitutional law of the

United States, and the law of nations. In addition to that course, they will be instructed in the duties of the soldier, the school of the company and the battalion, the science of war, the evolution of the line, and the duties of commissioned officers."

The Arsenal, at first co-equal with The Citadel, was soon incorporated with it, and had for its special function the instruction and training of the recruits forming what was known as the Fourth Class.

The first class, numbering six men, was graduated in 1846. C. C. Tew, the first honor man of his class, and proto-graduate of the institution, afterwards founded the Hillsboro Military Academy, North Carolina, was Colonel of North Carolina troops in the Confederate Army, and was killed at Sharpsburg, September, 1862, while commanding Anderson's brigade.

The value to the State of the military training given at The Citadel is strikingly shown by the fact that, of the two hundred and forty graduates before the close of the War between the States, about two hundred were officers in the Confederate service, and forty-three laid down their lives upon the battlefield. The list of Citadel officers in that great conflict is an honor-roll of which any institution may well be proud.

There are two dates in the history of the State Military Academies which mark the boundaries of this greatest military struggle of the century. Between January 9, 1861, and May 9, 1895, what a tragic history was enacted!

On the former date, Maj. P. F. Stevens, Superintendent, and a graduate of The Citadel, in command of a detachment of Citadel Cadets manning a battery of 24-pounders on Morris Island, drove off the steamer, "Star of the West," which was attempting the relief of Fort Sumter—thus firing the first hostile shot of the War.

On the latter date, Capt. J. P. Thomas, Superintendent of The Arsenal, and also a graduate of The Citadel, with the cadets of his command, had a skirmish with Stoneman's raiders,

near Williamston, S. C., thus firing the last shot of the War delivered by any organized body of troops east of the Mississippi River.

At the present time, the corps of cadets has an annual drill for the "Star of the West" medal, a handsome trophy for the best drilled cadet of the corps, presented to the institution many years ago by Dr. B. H. Teague, a veteran of the War. This medal gets its name from a piece of oak wood, in the form of a star, taken from the historic vessel.

At the fall of Charleston, in February, 1865, The Citadel was occupied by Federal troops. The corps of cadets was at that time in the field in the upper part of the State, and never returned to the institution, which continued in the hands of the United States military authorities, in spite of the best effort of the State to recover it, until 1881.

In that year, Governor Hagood said in his annual message to the General Assembly:

"The State Military Academy at Charleston has been suspended in its operations since the late Civil War. This has been due to the fact that the building known as The Citadel, in which it has its seat, has been since the close of the war in the possession of the United States authorities, and has been used by them until recently as a military post.

"It is understood that the General Government is now prepared to restore it to the custody of the State. It is desirable that this property be recovered, and again devoted to the purpose of higher education, in the facilities for which our needs are greater than the source of supply.

"A measure will probably be submitted to you at this session to accomplish this purpose and you will permit me to say that, in my judgment, it is now practicable to reopen the school, and it ought to be done."

An Act to authorize the reopening of the South Carolina Military Academy was passed by the General Assembly, and approved January 31, 1882.

The Citadel was reopened on October 1, 1882, with 189 cadets, and has been in continuous and successful operation ever since.

In 1910, the Legislature fixed the title of the institution as "The Citadel, The Military College of South Carolina."

In 1918, the City of Charleston offered the State a magnificent tract of nearly 200 acres of land adjacent to Hampton Park, and beautifully situated on the banks of the Ashley River, for a "Greater Citadel." The Legislature accepted the offer and made in 1919 and 1920 appropriations for the necessary buildings.

On September 20, 1922, the college opened in its commodious new quarters, which had been provided at a cost of more than a million dollars. The facilities in laboratories and classrooms have been largely increased, dormitory accommodations have been enlarged forty per cent. and ample and beautiful grounds for all military work and athletic activities have been provided.

The "Mary Bennett Murray Hospital," erected at a cost of \$60,000 by a public-spirited citizen of Charleston, was presented to the college in 1923, and is one of the most complete and well-equipped infirmaries in the South. In this year, also, the Alumni Gymnasium was erected with a fund of \$50,000, subscribed by graduates and former cadets.

COLLEGE YEAR

The college year begins the middle of September and ends about the middle of June.

It is divided into two terms of four months each, and examinations are held at the end of each term, after which reports showing the records of the cadets in studies and conduct are sent to parents and guardians.

FURLOUGH

A suspension of work for ten days, including Christmas Day and New Year's Day, is required by law.

The corps of cadets is furloughed from Commencement Day, in June, until the opening of the following session in September. There are no Easter holidays.

During the session, furloughs will be granted to cadets only for some urgent reason, and parents are requested not to apply for leaves of absence for their sons unless in case of necessity. In every case the reason for the furlough will be stated, and it must be left to The Citadel authorities to determine whether the circumstances warrant the approval of the furlough. Parents applying for the admission of their sons to The Citadel relinquish control over them to the authorities of the institution. The time which is allotted to studies and military work is essential for the completion of the required courses, so that cadets must not be absent except when it is absolutely necessary; and the whole system of discipline depends upon uniform requirements for all, and no special privileges to any.

SYSTEM OF MANAGEMENT

The Citadel is essentially a military college, and all the students live in Cadet Barracks, under the same discipline as in use at West Point. From reveille to taps, the Citadel cadet passes a full and busy day, every hour of his time being accounted for, and its appropriate task performed.

The regular habits of study and living thus formed, the attention to duty, obedience to authority, and love of order inculcated, are considered among the most valuable features of the education given. While few of the graduates of the College enter the military profession, hundreds in all the walks of civil life attest to the high value of the training received at the institution.

RESERVE OFFICERS' TRAINING CORPS

The cadets are organized into a battalion of five infantry companies, with cadet officers. Provision is also made for the instruction of a certain number of the cadets in Coast Artillery work, for which the United States Government furnishes a complete and expensive equipment. Competent army officers are detailed for the instruction of these Infantry and Artillery Units of the R.O.T.C., and the character of the military work done is of a high order, qualifying the graduates for commissions in the Officers Reserve Corps of the United States Army. The military spirit of The Citadel Corps of Cadets has always been noteworthy, and the training which the cadets receive has met the heartiest commendation of the War Department, which has for many years rated the institution as a "Distinguished College."

During the four years of his course at The Citadel, the student receives from the Government an allowance of \$72 for uniforms, and in his junior and senior years a commutation of \$12 a month for rations.

The Corps of Cadets go into camp for annual target practice each spring, on the National Guard Rifle Range near Mt. Pleasant, S. C. Each cadet fires the course prescribed for the Regular Army, and at the close a rifle team is selected to represent the State of South Carolina at the National Matches, Camp Perry, Ohio.

At the close of the session in June, the members of the Junior Class in the Infantry and the Coast Artillery Units of the Reserve Officers' Training Corps, go to the Government Camps for the special training provided by the War Department for the Senior Division. These encampments are closely supervised and furnish an excellent opportunity for the cadet to get a pleasant vacation and meet college men from all over the country. Transportation, meals, housing, and pay at the rate of \$1.00 per day is given to those attending camp.

RELIGIOUS SERVICES

The religious training of cadets is provided by daily chapel services attended by the corps, by regular Sunday morning service conducted in the Citadel Chapel by the various ministers of the city, and by the Bible-study groups and other activities of the Cadet Y.M.C.A.

The military system works not only for the good health but for the morals of the cadets. Moreover, the barracks life of the students precludes much waste of time or loss of character.

Cleanliness, temperance, regularity and courtesy are insisted upon, and personal responsibility and a high sense of honor are stimulated and developed.

LIBRARY AND READING ROOM

The library contains a large number of books of reference for all the departments of the college, besides being well supplied with works of standard and current fiction. It is catalogued, and in charge of a competent librarian.

The reading room is a large, airy and well-lighted room on the ground floor, directly accessible from the Quadrangle, and is supplied with the current magazines.

Y.M.C.A.

The Citadel Y.M.C.A. was organized in 1886, and is a valuable influence in the student life of the college.

While the Faculty has oversight of the work, it is an institution of the boys, for the boys, and by the boys. Here all meet on equal terms; the old men are welcomed back, and there is thrown around the new student a wholesome and affectionate atmosphere, which enables him to meet more courageously and successfully the hard battles that every student must fight.

The supervision and extension of the work is in the hands of a Student Committee, Cabinet, and an Executive Secretary, who devotes his entire time to the work in The Citadel.

The regular weekly meetings of the Association are addressed by prominent clergymen, professional and business men of the city. At frequent intervals, these meetings are addressed by noted men from the greater religious, secular, and educational institutions of the country, speakers brought here by the city organization. Contact with these men is an education in itself, and the moral and religious influence of their helpful messages is most profound. A series of "vocational talks" finds place among the lectures delivered at these meetings.

The efficiency of Association leaders and the effectiveness of the work are greatly increased by the yearly attendance of cadets at county, State, and international conventions and summer schools. Bible study classes are organized each year, and taught by members of the Faculty and Senior Class, and the religious leaders of the city. Mission study is also provided for, and from time to time the student's horizon is broadened through lectures by Foreign Work representatives. The religious and economic problems of the homeland are also given due consideration.

A *Handbook*, published by the Association, is presented each year to the students at the beginning of the first term.

The Faculty heartily commends the work of the Association, and it is recommended that every parent or guardian encourage the student under his care to affiliate himself with the Y.M.C.A. as soon as he enters The Citadel.

ATHLETICS

The climate of Charleston permits open-air exercises throughout the year; and the setting-up exercises, Butt's Manual, daily drill, etc., and the sports of the cadets, furnish the

best means of securing bodily health and growth; but special attention may be given those cadets who may need particular exercises for specific needs.

The coaches of the various athletic teams are competent and experienced and use due care to prevent injurious training on the part of cadets who engage in athletics.

It is the policy of the institution to give every reasonable encouragement to athletics, and to see that all contests are conducted on a clean, amateur basis. The athletic interests are controlled by a well-organized cadet athletic association, under the supervision of a Faculty Committee. The Citadel is a member of the Southern Intercollegiate Athletic Association, and it is represented at the annual track and field meet of this organization.

A wide range of opportunity is offered to the cadet to find some branch of athletics in which he may excel or from which he may derive pleasure and profit. Football, baseball, track and field sports, tennis, basket-ball and relay racing are the branches in which regular teams are organized. The danger of athletic sports is minimized by having the men under the direct care of competent coaches, and by strict examination by the surgeon.

While athletics are encouraged and supported by the authorities, they are firmly subordinated to the prescribed work of the college, and no interference that will materially hamper the progress of the cadets in their studies, or introduce irregularities into the routine of the college, is permitted.

It is the observation of the authorities that clean, well-conducted athletics in an institution of learning foster a fine spirit of loyalty and manliness. It is the purpose here to derive a full measure of this benefit, and in addition, to provide wholesome recreation for the cadets.

HAZING

One of the bugbears of college life, which has been talked about and magnified beyond its due importance, is hazing. The practice of hazing is fortunately getting less and less common in our colleges. It is a practice which should be totally abolished, because, if countenanced at all, it almost invariably is carried to an excess by a few irresponsible students.

At the Citadel where all the cadets live together in one barracks, as one big family, the presence of individuals who are obsessed with the idea that beatings and indignities are a part of a student's education cannot be tolerated; and no student is wanted in the corps who does not subscribe voluntarily to the regulations which absolutely bar hazing from the corps.

The regulations concerning hazing contained in the following resolution of the Board of Visitors, are supported and enforced by the corps of cadets.

Whereas, The statutes of the State make it unlawful for any student to engage in hazing, (XXVIII, Statutes at large, page 619), and

Whereas, They also forbid secret Greek letter fraternities and all organizations of a similar nature, (No. 1838, Code of Laws, 1912, Vol. 1), and

Whereas, These acts require the governing Boards of all colleges supported in whole or in part by the State to formulate and issue such regulations as may be necessary to enforce these laws,

Therefore, be it resolved, That the Board of Visitors of The Citadel, in compliance with the laws cited, hereby adopts the following regulations:

1. Every cadet will be required to subscribe to the following promises:

I,—(Name of cadet)—,hereby promise that I will not engage in hazing in any form during my connection with The Citadel.

I also promise that I will not join or affiliate with any secret society or fraternity while I am a cadet.

(Signature of Cadet.)

2. In any apparent case of hazing, where the facts do not come directly under the observation of the authorities, the commandant of cadets will require each cadet in the corps to make a statement whether he was involved in the case, and, if so, the facts relating to his connection therewith. In every case where a cadet is guilty of hazing, he shall immediately withdraw from The Citadel, and the facts in the case together with the statement of the cadet will be forwarded to the Board of Visitors.

3. The acceptance of these regulations by the parents or guardian of each cadet and also by the cadet himself will be required before such cadet will be admitted to the college.

4. Hazing is defined to be striking, laying hands upon, treating with violence, or offering bodily harm to a cadet who has been connected with the college for less than one year, or other treatment of a harassing, tyrannical, abusive, insulting, or humiliating nature, or that may endanger the physical well being of such cadet.

HONOR SYSTEM OF THE CORPS OF CADETS OF THE CITADEL

PREAMBLE

We, the members of the Corps of Cadets of The Citadel earnestly desiring to develop the honor spirit of the Corps into a system that will fortify the strong members of the Corps, strengthen the weak ones, and eliminate any who may be so depraved as to hold in disregard the principles of truth and honor which are the chief glory of any institution, and which we are determined to inculcate and defend as the most treasured possession of the student body of The Citadel, do ordain and establish this honor system for the Corps of Cadets of The Citadel.

PRINCIPLES

1. The honor spirit of the Corps of Cadets of The Citadel demands of every cadet that he shall be an honorable gentleman, and that he will never, while a member of the Corps, be guilty of an act reflecting discredit upon his honor and integrity, or in any way countenance such an act by a fellow cadet, or allow it to go unpunished.

2. The honor spirit of the Corps further holds that it is the duty of an honorable gentlemen to avoid, as far as possible, even the appearance of evil, and demands that every member of the Corps shall exercise the greatest care never to place himself in a position in which he might be suspected of dishonorable conduct.

RULES—CORPS HONOR COMMITTEE

1. There shall be a corps honor committee of nine members, constituted as follows: Three members from the senior class and two members from each of the other classes. For each member of the committee there shall be a substitute, and the

substitute for a member shall belong to the same class as the member, and shall take the member's place at all meetings which he cannot attend, and in the event of the removal of a member from the committee, shall succeed to his place on the committee.

2. The members of the committee, and the substitutes to serve during the ensuing year (except the ones from the freshman class) shall be elected by the senior class on the morning of its graduation, and the names of those so elected shall be announced at the graduation exercises.

3. The members and substitutes so elected, shall, acting jointly, choose the members and the substitutes from the freshman class as soon as practicable after the opening of the new session.

4. In case the position of substitute becomes vacant by the substitute's succeeding to the position of member, or otherwise, the members and remaining substitutes shall, acting jointly, choose another substitute from the class in which the vacancy exists.

5. Immediately after any election, each newly elected member and substitute shall be installed in office by taking the following obligation in the presence of the old members and substitutes. "I, John Doe, of my own free will and accord, do hereby, in the presence of God and this honorable body, sincerely promise to discharge the duties of the office into which I am now inducted to the best of my knowledge and ability, and I solemnly engage to be faithful to the trust reposed in me so far as it lies in my power to do so."

6. Members and substitutes shall hold office until their successors have been duly chosen and installed.

7. The committee shall elect from its members a chairman and a secretary who will hold office until their successors have been duly chosen.

II. DUTIES OF CORPS HONOR COMMITTEE

1. The Corps honor committee shall make a thorough investigation of all alleged violations of the honor code of the Corps. Convictions by the committee shall be by two-thirds vote; other findings or decisions shall be by majority vote.

2. The committee shall interpret the honor code and rules whenever called on to do so, and shall see that the President is duly informed of all interpretations, and that they are properly published to cadets.

3. The committee shall keep a complete record, in classified form, of all its proceedings.

4. If at any time the committee feels the need of counsel that only men of mature years can give, it shall call into conference some member or members of the faculty.

5. The members of the committee and the substitutes shall hold a *regular meeting* at 9 a. m. on the first Sunday of each month during the academic year, or as soon thereafter as practicable, at which meeting the honor spirit of the Corps shall be considered, and if possible, ways and means of making it finer and purer devised.

III. DUTIES OF MEMBERS OF THE CORPS

1. It shall be the duty of every cadet who knows of any violation of the honor code of the Corps to report the same to the Corps honor committee, and to give full and free testimony before the committee when the case is under investigation.

2. It shall also be the duty of every cadet who can give material testimony as to any case under investigation to report this fact to the committee, and, when called, to appear before it and give full and free testimony.

IV. RIGHTS OF CADETS CHARGED WITH VIOLATING HONOR CODE

1. A cadet whose integrity is under investigation by the honor committee shall be entitled to counsel from the corps or faculty.

2. Upon the completion of any investigation, the accused shall be notified of the finding of the committee; and, if the finding be "Guilty," the accused shall be further notified that if necessary all the facts in the case will be reported to the President at office hours the following day.

3. A cadet found guilty of violating the honor code by the honor committee, shall have the right to appeal from its decision to the President, who will take such action as his judgment may dictate.

4. The honor committee shall be provided with a private office, furnished to meet its needs, in which all of its meetings shall be held. Over the door of its office the following shall be inscribed in gold letters: HONOR COMMITTEE.

VI. GENERAL MEETING OF CORPS AT OPENING OF SESSION

1. At the opening of the new session, and before new cadets have matriculated, a general meeting of the corps shall be held, at which the honor code and rules shall be explained to the members of the corps, more especially to the new ones, by the members of the honor committee and such others as may be present for the purpose.

APPENDIX—RESOLUTIONS

1. Resolved, That the officers of the faculty be requested to approve this system and to co-operate with the cadets now at The Citadel and those who will enter in years to come in establishing and enforcing it.

2. Resolved, That the Academic Officers be requested to report to the honor committee any violation of the honor code that may come to their attention and to appear before the committee and give testimony when the case is under investigation, and also to notify the committee as to any material testimony that they could give in a case otherwise reported to the committee, and to appear before it when called.

3. Resolved, That it is the sense of the corps of cadets that a member of the faculty should be present during all examinations and class-room tests that count towards a cadet's graduation, for the purpose of giving proper dignity to the exercises and maintaining law and order, (and resolved further, that such member of the faculty, although not present for espionage, be requested to report to the honor committee any violation of the honor code that he may observe during an examination test.)

4. Resolved, That the members of the faculty be requested to take every possible precaution to seat cadets taking examinations and tests in such a manner as to enable them to avoid the appearance of evil without subjecting themselves to inconvenience and physical discomfort.

5. Resolved, That the authorities of The Citadel be requested to provide an office, properly furnished, for the use of the honor committee.

6. Resolved, That the President be requested to make the announcement of the names of members of the new honor committee a feature of the graduating exercises.

EXPENSES

GENERAL EXPENSES, REMISSION OF TUITION, RETURN OF FEES, UNIFORMS, SPECIAL FEES, PAYMENTS CLASSIFIED, MISCELLANEOUS

GENERAL

The Citadel is a State institution, and is not maintained for profit. Only the cost of supporting a cadet is required.

The fee for board, tuition, laundry, lights, heat, water, janitor service, and ordinary hospital attention is \$250.00 for the session. This amount is required of all pay cadets, and is distributed as follows :

Board for nine months at \$18.00 per month	\$162.00
Tuition for nine months	40.00
Laundry, lights, heat, water, janitor service and hospital	48.00
Total	<hr/> \$250.00

Juniors and Seniors receive approximately \$125.00 subsistence allowance a year from the Federal Government, and the attention of parents is called to the fact that this sum, which is paid directly to the cadets, very materially decreases the general expenses when applied to their payment.

REMISSION OF TUITION

A remission of \$40.00 for tuition is granted to residents of South Carolina for a period of one year when acceptable certificates showing inability to pay are submitted through the President of The Citadel to the State Board of Public Welfare. The decision of the State Board is made by December 1st. All applications for free tuition should be filed as soon after the opening of the session as possible. Remission of tuition decreases the January and April payments \$20.00 each. The necessary blanks may be secured from the President.

RETURN OF FEES

A cadet discharged during any term will not be entitled to a refund of any of the amount paid for maintenance for that term.

UNIFORMS

New cadets must be provided with a complete outfit of uniforms, therefore the cost is necessarily more for the first year than for any two successive years combined. In considering this cost, parents should note the fact that the average yearly sum of \$70.00 charged for uniforms is not greater than that ordinarily spent for civilian clothing. In addition to the fee of \$10.00 on account of field uniform required of all recruits when enrolled, the following payments on account of uniforms will be made:

	SEPT. 13TH	DEC. 1ST	FEB. 1ST
By New Pay Cadets	\$45.00	\$40.00	\$50.00
By Old Pay Cadets	30.00	30.00	-----
By New State Beneficiary Cadets	-----	25.00	-----
By Charleston Beneficiary Cadets	25.00	25.00	-----

At present, Freshmen and Juniors receive \$30.00 uniform allowance from the Federal Government, while Sophomores and Seniors receive \$6.00, which sums are credited to their clothing accounts.

SPECIAL FEES

On September 13th, all cadets will make payments for the purposes specified as follows: books and stationery, \$15.00; athletic fee, \$10.00; Y. M. C. A. fee, (for Protestants), \$3.00. A breakage fee of \$5.00 will be payable April 1st.

A physics laboratory fee of \$2.00 is charged Freshmen, and a Chemistry laboratory fee of \$7.50 is charged Sophomores, Juniors, and Seniors electing Chemical and Biological courses. These sums are not additional but are charged to the book and stationery accounts.

The hospital facilities at The Citadel are excellent, and all ordinary cases of sickness are treated by the surgeon and nurses of the college without expense to the parent. Surgical cases, however, requiring the removal of the cadet to an infirmary in the city, and special treatment of eyes, ears, dental services, etc., must be paid for by the parent or guardian.

Every cadet is expected to take an interest in athletics, attend the games of football, baseball, and basketball played in Charleston, and be a member of The Athletic Association.

A system of Class Funds, under the regulation of the Director of Cadet Affairs and Cadet Council, has been established whereby a cadet can participate in all the social activities of the cadets at a minimum of cost. Besides the informal dances, five formal dances are annually given: Thanksgiving Hop, Christmas Hop, Senior Hop, the annual picnic, and the Commencement Hop. The fee for membership in the Class Fund is \$5.00, and while not required, it is strongly recommended.

NOTE: The above classification is exclusive of uniform fees which are tabulated under the head of uniforms.

MISCELLANEOUS

The Quartermaster cannot take care of allowances, which should be sent directly to the cadets by check or postoffice order. They should never be sent in cash, nor in large sums. A small, regular weekly allowance on which the cadet can count, and by which he can regulate his expenses, is the best way to cultivate in him proper habits of economy.

All cadets are required to furnish their own bed clothes. Bedsteads and mattresses are provided by the college, but pillows are not furnished. A mattress cover will be furnished at cost to each cadet. Cadets are also expected to come provided with underclothes. A list of these articles is given as follows:

- Six white or negligee shirts
- Six summer undershirts
- Four winter undershirts
- Three nightshirts or pajamas
- Six summer drawers
- Four winter drawers, or union suits
- Six pairs of socks
- Six handkerchiefs
- Six towels
- One clothes bag
- One clothesbrush, toothbrush, hairbrush and comb
- One pillow
- Three pillowcases
- Four sheets for single bed
- Two blankets
- One comfort or spread
- One bathrobe

Clothing to be marked with name as follows: sheets, towels and handkerchiefs in the corner; pillowcases in corner, at open end; collar on inside, near center; shirts on band,

near buttonhole at back of neck; undershirts and nightshirts on piece of cloth containing buttonholes, inside, near upper front; socks on leg, near top. Upon entrance each cadet is given a laundry number which he retains as long as he remains at The Citadel.

Remittances should be made by money order or check, made payable to E. M. Tiller, Quartermaster, in settlement of college fees.

PART III

REQUIREMENTS FOR ADMISSION

Applicants for admission must be not less than sixteen nor more than twenty years of age. They must be at least five feet high, and physically able to do military duty.

Applications must be made to the President by parents or guardians, and should be accompanied by a certificate from the principal or president of the school or college which the student last attended.

The requirements for admission to the Freshman Class at The Citadel are the completion of four years of high school work in an accredited high school whose courses cover fifteen high school units. These are the requirements approved by the Association of Colleges and Secondary Schools of the Southern States, of which The Citadel is a member.

Diplomas from high schools whose courses cover these requirements will admit the applicant without examination. Applicants not having a diploma or a satisfactory certificate will be examined in such studies as will show their proficiency in the studies covering fifteen units. Applicants are requested not to send their diplomas, but to have the certificate from the back of the catalog filled out and sent in with the application.

Candidates for admission must present a certificate showing entrance credits as indicated on pages following.

	UNITS
English	3
United States History	1
History (Ancient, Modern, or English).....	1
Elementary Algebra	1½
Plane Geometry	1
<hr/>	
Total required subjects	7½

In addition to the above, candidates must present $7\frac{1}{2}$ units

Modern History	1	
from the following:		UNITS
English (Fourth year)	1	
Civics	$\frac{1}{2}$	
Greek and Roman History	1	
Advanced Algebra	$\frac{1}{2}$	
Solid Geometry	$\frac{1}{2}$	
Plane Trigonometry and Logarithms.....	$\frac{1}{2}$	
Physics	1	
Chemistry	1	
Physical Geography	$\frac{1}{2}$ or 1	
Zoology	$\frac{1}{2}$ or 1	
Botany	$\frac{1}{2}$ or 1	
Physiology and Hygiene	$\frac{1}{2}$ or 1	
French	1, 2, or 3	
German	1, 2, or 3	
Spanish	1, 2, or 3	
Latin	1, 2, 3, or 4	
Greek	1, 2, 3, or 4	
Bookkeeping, Stenography, and Type- writing	1, or 2	
Commercial Arithmetic	$\frac{1}{2}$ or 1	
Commercial Geography	1	
Commercial Law	1	
Elementary Mechanics	1, or 2	
Shop Work and Manual Training.....	1, or 2	
Mechanical Drawing	1	
Agriculture	1, 2, 3, or 4	

ENTRANCE EXAMINATIONS

Applicants for admission who are unable to present a satisfactory certificate will be required to take examinations for entrance based on fifteen units. The examinations upon the required subjects as shown on page 51 will be given at the various county-seats on the second Friday in July, and the ex-

aminations upon the optional subjects will be given at The Citadel prior to the opening of the session in September. Applicants for admission by examination should communicate with the Registrar for information concerning these examinations.

ADVANCED STANDING

Applicants for advanced standing from other colleges must present an honorable discharge with a transcript of their college record and entrance credits. All applicants for advanced standing must furnish satisfactory evidence of having completed the equivalent of the work done at The Citadel, and of qualification to pursue the desired courses.

BENEFICIARY SCHOLARSHIPS

The State of South Carolina appropriates annually twenty thousand dollars for the support of seventy-eight cadets in the college. These scholarships are distributed among the various counties as shown on pages 57 and 58.

Notices of vacancies in these scholarships are advertised in the month of June of each year in the newspapers of the counties concerned, and also in the leading State daily papers. Applications for these beneficiary appointments must be made upon printed forms furnished by the President of The Citadel, and must be filled out in every particular, and returned to the President at The Citadel, who will submit them to the State Board of Public Welfare for examination and recommendation.

As it is the intention of the State to limit the beneficiary appointments to worthy young men without means of obtaining a college education, certificates of inability to pay are required in these applications.

The following are not eligible for beneficiary scholarship appointments :

(a) A person who during the current year has won or holds a scholarship at another State institution.

(b) A person who has been in attendance at The Citadel or "any other institution of higher learning known as a College or University," provided, however, that this condition shall not apply if there are no other applicants for the scholarship.

(c) A person who has forfeited a scholarship at The Citadel or any other State institution by failure to maintain himself.

Applicants to be eligible must not be less than sixteen years of age nor more than twenty years of age on September 20th. They must be at least five feet in height, physically able to do

military duty, of good moral character, and must show in their certificates that they are financially unable to go to college at their own or parents' expense.

In all counties where vacancies occur, competitive examinations will be held on the second Friday in July by the County Superintendent of Education, and awards will be made to the applicant making the best grades, if they are otherwise eligible.

The following information concerning the scope of the examinations is furnished prospective candidates:

MATHEMATICS

The examination of Algebra will cover the operations through the binomial theorem as given in any text-book in common use, and will lay particular stress upon factoring, solution of simple simultaneous equations, square and cube root, theory of exponents, and quadratic equations. In Plane Geometry, the examination will be given on the elementary propositions of the first five books.

ENGLISH

ENGLISH GRAMMAR—The examination in this subject will include spelling, punctuation, the various constructions of the parts of speech, and the analysis of the English sentence.

ELEMENTARY RHETORIC—The examination in this subject will be based upon the use of words in the sentence, the structure of the sentence, and the various methods of developing the paragraph. In addition to this, the applicant must have a fair knowledge of narration, description, and letter-writing.

LITERATURE—It is expected that the applicant will be familiar with some of the best literature, in both prose and poetry, and with the lives of the authors.

HISTORY

HISTORY OF THE UNITED STATES—The candidate should be prepared to name the European countries that took part in

exploring and settling North America, and give an account of the founding of the principal colonies in what is now the United States. He should be able to tell what were the chief occupations of the people in those colonies, to give an account of the colonial wars, and to discuss the trouble of the English colonists with the mother country. He should know the causes and results of the principal wars to which the United States has been a party, and be able to give a chronological account of the chief events of each. He should be prepared to show a knowledge of social and industrial changes, more especially those of the last fifty years, and to name the presidents in order, and give a discussion of one or more important events in the administration of each. Some such text as Hart's *Essentials in American History* is recommended.

ANCIENT HISTORY—The candidate should be able to give a chronological account of the rise and fall of the various oriental nations, and to explain what they contributed to the European world. He should familiarize himself with social and political conditions and changes in ancient Athens and Sparta; and should be able to show knowledge of the culture of the ancient Greeks; and to indicate what the modern world owes them. The period from the opening of the Persian wars through the break-up of Alexander's Empire should be thoroughly studied. In Roman history, the candidate should be able to give an account of the governmental changes in the Roman world, to the founding of the Empire, and should be able to tell how Rome expanded over Italy and then over the Mediterranean world. He should be able to name the principal emperors, and give an important event in the reign of each, and to explain the decay and fall of the Empire. The text by Myers is recommended.

PRIVATE SCHOLARSHIPS

The "James R. Crouch Scholarship," endowed by Mr. Jas. R. Crouch, Class of 1899—James R. Crouch, Jr., 1927.

The "Preston J. Peterkin Scholarship," endowed by Mr. W. G. Peterkin, of Fort Motte, S. C.—Vacant.

The "William States Lee Scholarship," endowed by Mr. Wm. Lee, Class of 1894—A. C. Steele, 1929.

DEPARTMENTS OF INSTRUCTION

COURSES AND DEGREES

The courses in the freshman and sophomore classes are prescribed, and are the same for all students. At the beginning of the junior year, students are offered optional courses in civil engineering, chemistry, physics and electricity, pre-medical preparation, literature, history, and languages, and business administration.

The session of thirty-six weeks is divided into two equal semesters. The unit of credit in the various courses is one hour a week for one semester,—two hours of laboratory being counted as one. The standard course is one which has a semester credit of three; that is, a course which is taken three hours a week for one semester of eighteen weeks.

The work of a semester is graded as follows: four monthly grades, each of a maximum value of one hundred, are recorded, based on the daily class-room work. At the end of the semester, an examination is held covering the entire ground gone over during the four months, the maximum mark being two hundred. The semester grade is then found by averaging the monthly and examination marks.

The passing grade is an average of seventy. A student who has a passing grade on a majority of his courses, and no average below sixty, will receive full credit for the work of the semester. An average of less than sixty, but more than fifty, will be marked "conditioned." No credit will be given nor condition allowed for a course in which the student's average is below fifty; but he will be required to repeat the course and make a satisfactory record in order to receive credit. No student will be advanced to a higher class with more than one "conditioned" course.

The monthly and semester percentages will be published only approximately by letter grade: A representing an average of 90 to 100; B, 80 to 90; C, 70 to 80; D, 60 to 70; E, 50 to 60; F, below 50.

A minimum total of 148 semester hours, or 74 credit hours, is required for graduation.

The degree of Bachelor of Science is awarded upon the satisfactory completion of courses in engineering, science, and business administration. The degree of Bachelor of Arts is awarded upon the completion of the literature courses.

The degree of civil engineer is awarded to graduates in engineering after at least three years of responsible work in their profession and the submission of a satisfactory thesis on some engineering subject.

ENGLISH

NOTE.—For information in detail about the courses, see following pages.

Year	Subject	Courses	Clock Hrs.—		Credit Hours
			Rec.	Lab.	
FRESHMAN :					
	Rhetoric and Composition.....	Engl. 1	3		3
	Hist. of Modern Europe, 1500-1815.....	Hist. 1	3		3
	French Grammar and Reading.....	French 1	3		3
	Trigonometry, Solid Geometry, etc.....	Math. 1	5		5
	Physics, Elementary General.....	Phys. 1	2	2	3
	Drill Regulations and Exercises.....	Mil. Sci. 1	1	4	3
					20
SOPHOMORE :					
	History of Literature.....	Engl. 2a }	3		3

DEPARTMENT OF BIOLOGY

MAJOR KNOX

Only one course is offered in this subject. This course is designed primarily for the benefit of those students intending to undertake the study of medicine. With this in view, the course has been designed to collaborate with the requirements for admission to the medical colleges. However, the general cultural importance of this field of knowledge needs no emphasis and it would be advisable that, at least one course in this subject should be undertaken by all students who find it possible to do so.

Course 1. ELEMENTARY ZOOLOGY.—Required of all seniors electing the chemistry biology course. Elective to all juniors and seniors. Lectures, two hours a week; laboratory, four hours a week.

This course consists in the study of the various groups of animal organisms from the standpoint of anatomy, physiology, and phylogenetic and ecological relationships. The ordinary routine of the class-room is, from time to time, varied by special lectures on many of the broader aspects of the subject, such as heredity, the cycle of the germ-cell, the pathogenic relationship of many organisms and many other of like character.

In the laboratory, the student undertakes individual microscopic examinations and dissections of representative types of the various groups.

Text-book: "Manual of Zoology," Parker and Haswell; "Invertebrate Zoology," Gilman A. Drew.

GEOLOGY

MAJOR KNOX, PROFESSOR

Only one course is offered in this subject.

Course 1. ELEMENTARY GEOLOGY.—Elective to all juniors and seniors. Lectures, three hours a week.

The course begins with the study of dynamic geology or the movements of the earth's crust and the igneous influences to which it is continually being subjected. Destructive processes such as the work accomplished by weathering, running water, the wind, and snow and ice are all considered. Following this comes the consideration of structural geology involving an investigation into the character of the rocks, both igneous and sedimentary, that constitute the earth's crust. Geomorphology or the physiographic aspect of the earth together with its contributing causes, is next considered. The course concludes with a survey of the historical aspects of the subject. The rocks of the great, well-recognized time periods of the past are studied, together with the development and progress of life forms and the knowledge, so attained, is welded into a coherent history of events, culminating in our present planet.

DEPARTMENT OF CHEMISTRY

MAJOR LOUIS KNOX, PROFESSOR
LIEUTENANT R. M. BYRD, ASST. PROFESSOR

The Chemical laboratory at The Citadel is one of the best appointed in the South, embracing commodious, well-ventilated laboratories and lecture rooms equipped with the most modern furnishings and appliances for the comfort of the student and the efficiency of his work. The equipment and supplies are, at all times, maintained to allow the carrying out of a wide range of experimentation.

Students majoring in chemistry are required to take all of the courses offered by the department and in addition they are earnestly advised to elect calculus and German (Course 2, scientific German); and, if possible, geology and physics should be included as an elective. Pre-medical students are required to take the first four courses in Chemistry and Biology 1. They should elect Physics 2 and German 2, and, if possible geology should be included.

The department of chemistry offers the following five standard college courses.

Course 1. ELEMENTARY CHEMISTRY.—Required of all sophomores. Lectures, two hours a week; laboratory, two hours a week. Lieutenant Byrd.

No knowledge of the subject is prerequisite for entrance in this course.

The more commonly occurring elements, their properties, modes of preparation and occurrence, and their individual behaviors and chemical relations are considered and, as the student grows in breadth of detail, the underlying theoretical conceptions are carefully introduced and emphasized.

The student is provided with a text-book and laboratory manual and these are supplemented with demonstrated lectures and class-room discussions.

In the laboratory, the student is assigned a desk where he undertakes individual experiments illustrative of the class-room discussions. He is required to keep a note-book which is periodically inspected.

Text-book: "Intermediate Chemistry," Alexander Smith. "Laboratory Outline," by the same author.

Course 2. GENERAL COLLEGE CHEMISTRY.—Required of all juniors who elect chemistry, elective to all other juniors and seniors. Lectures, two hours a week; laboratory, two hours a week. Major Knox.

Course 1 is required of all of our sophomores and is, thus, designed to meet the requirements of all broadly educated men. However, the time devoted to the subject and the elementary character of the work in this course is deemed inadequate as a foundation in general chemistry on which to build the superstructure of higher attainments in this field of knowledge. Course 2 is, therefore, an extension of course 1. The study of reactions and principles is, at all times, more thoroughgoing and detailed than in the preceeding course. Considerable attention is directed toward the physical side of chemical action and, throughout the course, problems bearing on the different principles under discussion are assigned. The late views of atomic structure are adopted and chemical affinity, ionization, valence and other phenomena are interpreted along these lines.

In the laboratory, quantitative experiments, such as the determination of equivalents and molecular weights, the measurement of osmotic pressures, freezing point depressions, the conductivity of electrolytes and many others of like character are freely undertaken.

Text-books: "Smith's College Chemistry," James Kendall; "A Laboratory Outline for College Chemistry," the same author.

Course 3. QUALITATIVE ANALYSIS.—Required of all juniors electing the chemistry course. Elective to all juniors and seniors who either elect or have completed course 2. Lectures, one hour a week; laboratory, four hours a week. Major Knox and Lieutenant Byrd.

This is a course of instruction in the qualitative detection of unknown substances. The student is first given simple "unknowns" containing one or two metals. He acquires the methods whereby he may separate the different metals into groups and the manner in which these groups may be further resolved into individuals and the various reactions by which these individuals may be recognized. Following this he undertakes a similar study of the various common acids. As his skill and understanding advance, he is given more or less complex commercial products and naturally occurring substances, such as portland cement, limestone, phosphate rock, iron ores, etc., for analysis.

No better vehicle exists for the exhibition of practically the entire range of chemical principles than the study of qualitative analysis, employing, as it does, correct conceptions of hydrolysis, amphoterism, mass-action and equilibrium, and many other principles too numerous to mention. This aspect of the study is freely recognized and, at no time, does this course resolve itself into a blind rule of thumb execution of analytic processes but the greatest emphasis is, at all times, laid on the full comprehension of the various reactions employed and of the principles they illustrate.

Text-book: "Qualitative Analysis," Olin Freeman Tower.

Course 4. Required of all seniors electing chemistry for their major subject and of all seniors who propose to take up

the study of medicine. Elective to all other seniors who have completed course 2. Lectures, two hours a week; laboratory, two hours a week. Major Knox.

This course consists of the study of the various well-recognized groups of organic compounds, such as the paraffins, alcohols, fatty acids, amines, sugars, etc. Great emphasis is directed toward general reactions. Whereas, the purpose of the course is primarily to develop theoretical comprehension and practical experimental skill in the field of pure organic chemistry, still, wherever feasible, discussions bearing on the practical application of this knowledge to the commercial or pathological side of life are undertaken.

In the laboratory, the student carries out syntheses and other experiments paralleling the theoretical considerations involved.

This course, together with the three preceding courses, completes the pre-requisite training for those who propose to study medicine or pharmacy and affords excellent additional equipment to those who propose to teach chemistry or who expect to enter the technical field.

Text-books: "Theoretical Organic Chemistry," Julius B. Cohen.

Course 5. Required of all seniors electing chemistry as their major subject. Elective to others who have completed course 2 and 3. Lectures, one hour a week; laboratory, four hours a week. Major Knox.

The course consists in the development of skill in carrying out the common quantitative determinations of substances. As the student grows in skill in the ordinary standard methods, he is given more and more complex materials for analysis such as many of the ordinary natural and commercial products. Both gravimetric and volumetric methods are employed. In the lecture room, the various methods and their underlying

principles are freely discussed and many intricate stoichiometric problems are analyzed and solved.

This course rounds out the training for those cadets who intend to enter the field of pharmacy or who aspire to enter chemical laboratories as assistants.

Text-book: "Quantitative Chemical Analysis," Henry P. Talbot.

DEPARTMENT OF CIVIL ENGINEERING

MAJOR L. S. LE TELLIER, PROFESSOR

CAPTAIN JONH ANDERSON, ASSOCIATE PROFESSOR

The Civil Engineering course is planned on the assumption that a liberal education is one of the requisites of a professional education, hence it will be found that the program offered in this department does not cover all of the subjects ordinarily offered in a full four-year course. About forty per cent. of the total time for the four years of the Civil Engineering course is given to languages, literature, history and economics; and the remainder of the time to foundational courses that underlie all engineering design. No attempt is made to give instruction in a wide range of specialized courses.

The object in this department is to acquaint the student with the principles of engineering, and to give him the power to apply these principles intelligently, rather than to work by rules and formulæ, the derivation and significance of which he does not understand. Such drawing-room and field practice is given as may be necessary to illustrate and enforce the lecture and recitation work, and to inculcate correct habits of accuracy, precision and good form in engineering practice.

EQUIPMENT.—During 1924 and 1925 large additions were made to the equipment of this Department. A general testing laboratory for tests on concrete and other structural materials and a road materials laboratory were put into operation. These laboratories are equipped with 150,000 pound Olsen universal

testing machine, with special tools and appliances for shear and bending tests and for accurate measurements of deformation of materials under load; several machine tools, including lathe, milling machine, drill press, grinders, with the usual tools and appliances, Deval and Dorry machines, core drill press, impact machine, immersion tank, moist closet, cement machine, and various other small tools and appliances used in the testing of cement, and road materials.

The equipment now installed is sufficiently complete to enable the Department to give instruction in making all tests ordinarily specified for both bituminous and non-bituminous materials, along with a fairly wide range of experiments on structural materials.

For the work in Surveying, the Department is equipped with transits, levels, compasses, sextants, hand levels, aneroid barometer, and the usual accessories such as stadia and level rods, range poles, chains, tapes, targets, pins, *et cetera*.

Course 1a. SURVEYING.—Required of juniors in C.E. course. Three hours a week. Major Le Tellier and Captain Anderson.

Chaining, verniers, differential and profile leveling, compass surveying, transit surveying, note keeping, land survey computations, practical surveying problems, stadia, curves, topographic surveying, meridian and latitude determinations, time and longitude, plane table, sextant, farm surveying, and adjustment of instruments and precise measurements.

At the end of February, the time allotted to Course 2b in Drawing (see under Drawing Department) is given to topographic drawing and thus merges with this course.

Text: Tracy's "Surveying."

Course 1b. FIELD PRACTICE IN SURVEYING.—Required of juniors in C.E. course. Two hours a week. Major Le Tellier and Captain Anderson.

Text: Tracy's "Surveying Problems."

Course 2a. ANALYTICAL MECHANICS.—Required of seniors in C. E. course. Three hours a week; first semester. Major Le Tellier.

Statics, with special attention to framed structures; center of gravity, moment of inertia, friction, rectilinear motion, curvilinear motion, rotation, work and energy, and impulse, momentum and impact. Calculus is a prerequisite to this course.

Text: Poorman's "Mechanics."

Course 2b. MECHANICS OF MATERIALS.—Required of seniors in C.E. course. Three hours a week; second semester. Major Le Tellier.

Beams, columns, shafts, elastic curve, combined stresses, compound bars and beams, and reinforced concrete stresses. This course is concerned largely with the application of principles expounded in Course 2a.

Text: Houghton's "Elements of Mechanics of Materials."

Course 3a. GRAPHIC STATICS.—Required of seniors in C.E. course. Two hours of recitations and two hours of drawing a week; first semester. Major Le Tellier.

Triangle of forces; composition, resolution and equilibrium of forces; funicular polygon, graphic moments, dead and wind loads; wall reactions; stress diagrams for cantilever and unsymmetrical trusses; counterbracing; three-hinged arches; towers; beams; bridges, and bridge loadings; and influence lines.

Text: Wolfe's "Graphical Analysis."

Course 3c. ELEMENTARY STRUCTURAL DESIGN.—Required of seniors in C. E. course. Two hours of recitations and two hours of drawing a week; second semester. Major Le Tellier.

The object of this course is to give an elementary knowledge of wood and steel construction as applied to simple roof trusses and highway bridges.

Properties of standard, structural shapes, use of hand-book, riveted joints, structural details, design and fabrication of simple steel structures, and examination of manufacturers' drawings.

Text: Conklin's "Elementary Structural Design."

Course 4a. HIGHWAY ENGINEERING.—Required of seniors in C.E. course. Three hours a week; first semester. Captain Anderson.

This course is designed to give a broad general view of the science of highway engineering. The fundamental principles are emphasized. The subject is studied from the standpoint of modern practice in the fields of economics, administration, legislation, materials, and methods.

Text: Agg's "Construction of Highways and Pavements."

Course 4b. REINFORCED CONCRETE.—Required of seniors in C.E. course. Three hours a week; second semester. Major Le Tellier.

Elementary principles of reinforced concrete design and construction.

Text: To be announced.

Course 5a. HYDRAULICS.—Required of seniors in C.E. course. Three hours a week; first semester. Captain Anderson.

Pressure of water on plane and curved surfaces; flotation; flow of water through orifices, over weirs and in pipes and open channels; practical application of hydraulic principles in various devices and structures.

Text: Daugherty's "Hydraulics."

Course 5b. ENGINEERING PROBLEMS.—Required of seniors in C.E. course. Three hours a week; second semester. Captain Anderson.

A study of selected engineering problems and projects, with reports thereon, arranged to illustrate engineering methods of investigating, designing and constructing.

Course 6. ENGINEERING LABORATORY.—Required of seniors in C E. course. Three hours per week throughout the session Major Le Tellier and Captain Anderson.

General materials testing alternating with road materials testing. Compressive, tensile, tranverse and shearing tests on steel, concrete, wood and other materials, with measurement of deformation by strain gauges and other instruments.

Standard tests and experiments on bituminous and non-bituminous road materials. See under Equipment, Page 76, for a description of the equipment for use in this course.

DEPARTMENT OF DRAWING

MAJOR LE TELLIER

CAPTAIN ANDERSON

This department gives a course in Drawing and Descriptive Geometry which is required of all cadets in the Sophomore Class, and more advanced specialized courses which are required of the juniors in the Civil Engineering course. The object of the former is to give a knowledge of the use of Drawing as a practical graphical language and to give the rigorous training derived from exercises in Descriptive Geometry; and of the latter to provide the usual training in Drawing required in Civil Engineering courses. In addition to the work given in this department, much drafting is required in some of the courses listed under the Department of Civil Engineering.

Course 1a. MECHANICAL DRAWING.—Required of all sophomores. Four hours a week; first semester. Captain Anderson.

Use and handling of instruments; useful geometrical constructions; conics; cycloids; lettering; elementary projection; pictorial representation.

Text: French's "Engineering Drawing."

Course 1b. DESCRIPTIVE GEOMETRY.—Required of all sophomores. Four hours a week; second semester. Captain Anderson.

Descriptive Geometry, pure and applied; problems on points, lines and planes; orthographic projection; auxiliary and revolved views; sections; intersections and developments.

Text: Kenison and Bradley's "Descriptive Geometry."

Course 2a. MACHINE DRAWING.—Required of juniors in C.E. course. Four hours a week; first semester. Major Le Tellier.

The object of this course is to give the Civil Engineering students as much training in Machine Drawing as may be regarded as a safe minimum for civil engineers.

Representation of bolts and nuts, screw-threads, springs, and other machine parts; detail and assembly drawing of some simple machine; tracing and blueprinting; and examination of manufacturers' drawings, with attention to drawing office system.

Text: French's "Engineering Drawing," and Government Pamphlets and Maps.

Course 2b. TOPOGRAPHICAL DRAWING.—Required of juniors in C.E. course. Four hours a week; second semester. Major Le Tellier.

Map lettering, topographic symbols, plotting surveyors' notes, contouring, and mapping field notes made in C.E. Course 1 (see under Department of Civil Engineering).

Text: French's "Engineering Drawing," and Government Pamphlets and Maps.

EQUIPMENT.—This department is provided with modern adjustable drawing tables, locker cases, filing cases, blueprinting outfit, planimeters, pantograph, vernier protractors, universal drafting machine, mimeographing apparatus and the usual articles of minor equipment. The department maintains a file of mechanical, structural and topographical drawings obtained from engineers and architects, and another file of the best work done by cadets.

Files are provided in which cadets are required to keep all of their drawings, notes and other papers relating to their work.

SUPPLIES.—The department purchases and carries in stock all supplies and materials required in the drawing courses. These are furnished to cadets at cost, plus a small charge to cover freight and other expenses.

DEPARTMENT OF ENGLISH

MAJOR H. S. MC GILLIVRAY, PROFESSOR

LIEUTENANT M. B. KENNEDY, ASSISTANT PROFESSOR

LIEUTENANT D. E. MICHIE, INSTRUCTOR

English is required of all students during the first two years, and is elective, as either a major or a minor study, in the junior and senior years. In each of these years, those majoring in English are required to take two three-hour English courses from those designated as "open to juniors and seniors," the remaining hours to be made up as follows: In the case of juniors, English History (or the history course alternating with this), a junior modern language course, Military Science, and one course to be selected by the student; in the case of seniors, English History (or the history course alternating with this), a senior modern language course, and Military Science. See the tabulation of courses by elective groups, with values attached, on a preceding page.

All who take literature courses are required to hand in each month written reports on parallel readings. These papers are graded and errors found are discussed in class. Parallel assignments thus become an important supplement to the regular courses in Composition, Rhetoric, and Literature.

Course 1. RHETORIC AND COMPOSITION.—Three hours a week throughout the year. Required of all freshmen. Lieutenants Kennedy and Michie.

The aim of this course is to give the student a practical command of the English sentence and a reasonable mastery of good diction. The fundamentals of grammar are carefully reviewed and special stress is laid upon spelling, punctuation, capitalization, and errors in the use of English. Much time is devoted to theme writing in addition to frequent written exercises, weekly themes on familiar topics being assigned.

Text-books: Foerster and Steadman's "Sentences and Thinking," Cross's "The Little Grammar," Bruce and Montgomery's "The New World."

Course 2a. HISTORY OF ENGLISH LITERATURE.—Two hours a week throughout the year. Required of all sophomores. Major McGillivray.

The history of English Literature is attempted from Beowulf to the Age of Victoria. Along with the historical setting of each period and biographies of the various writers, the course includes the study of at least one typical work of each principal author, with parallel assignments for outside reading and written reports.

Text-book: "Century Readings in English Literature" or a similar work.

Course 2b. RHETORIC.—One hour a week throughout the year. Required of all sophomores. Major McGillivray.

In the Sophomore Class, the course consists of studies in paraphrasing, title making, sentence summaries, abstracts, and outlines, accompanied by weekly themes.

Course 3. SHAKESPEARE.—Three hours a week throughout the year. Open to juniors and seniors. Major McGillivray.

This course embraces lectures on the Elizabethan stage, lectures on Elizabethan English, a careful study of the more significant plays, and parallel readings of the less significant.

Course 4. PUBLIC SPEAKING.—Three hours a week throughout the year. Open to juniors and seniors. Major McGillivray.

Assignments and discussions are followed by frequent practice in speaking. A written oration is required of each student each semester.

Text-books: Ketcham's "Argumentation and Debate," "The Century Vocabulary Builder," and various magazines.

Course 5. THE ENGLISH ESSAY.—Three hours a week throughout the year. Open to juniors and seniors. Major McGillivray.

A thorough study of representative essayists from Bacon to Arnold is attempted. DeQuincey, Carlyle, and Macaulay are stressed. Parallel assignments.

Course 6. ENGLISH AND AMERICAN LITERATURE IN THE NINETEENTH CENTURY.—Three hours a week throughout the year. Open to juniors and seniors. Major McGillivray.

The course is a continuation of *Course 2a*, but is planned for the maturer student.

Text-books: "Century Readings in English Literature" or a similar text; "Century Readings in American Literature."

N.B.—*Courses 3 and 6 and Courses 4 and 5* are given in alternate years. In 1926-'27 *Courses 3 and 4* will be given.

DEPARTMENT OF HISTORY

MAJOR S. J. WILLIAMS, PROFESSOR

LIEUTENANT J. K. COLEMAN, ASSISTANT PROFESSOR

LIEUTENANT D. E. MICHIE, INSTRUCTOR

History is required of all students during the first two years. In the junior and senior years history is elective. All students electing history in the junior year are advised to take course 6. Course 3 and 4 are given in alternate years. During 1926-'27 course 3 will be given.

Course 1. HISTORY OF MODERN EUROPE, 1500-1815.—Required of all freshmen. Three hours a week. Major Williams; Lieutenant Coleman, Lieutenant Michie.

After a brief survey of the contributions of the ancient world and of the Middle Ages to European civilization, the course proper deals with the important political, economic and intellectual achievements from the opening of the sixteenth century to the close of the eighteenth. It treats of the spirit of reform and revolt, the expansion of Europe and the various aspects of the "old régime." Throughout the course, everything touching English and American history is duly emphasized.

Text-book: Hayes's "Social and Political History of Modern Europe," Vol. I.

Course 2. HISTORY OF MODERN EUROPE, 1815-1924.—Required of all sophomores. Three hours a week. Lieutenant Coleman.

The work in this class is a continuation of that begun in the Freshman Class. The text is supplemented by lectures to a greater extent than in Course 1, and more importance is attached to collateral reading. Special attention is paid to the Industrial Revolution, the rise of nationalism in Germany and Italy, the revolutionary influences of France, and the political progress of England. A careful study is made of the causes of the Great

War and the temporary settlement of 1920. Throughout the course, attention is directed to the conditions under which the various movements were carried on. As in the preceding course, everything touching English and American history is stressed.

Text-book: Hayes's "Social and Political History of Modern Europe," Vol. II.

Course 3. ENGLISH HISTORY.—Open to juniors and seniors. Three hours a week throughout the year. Major Williams.

A careful study of the history of England from its origin to the present time is attempted. Special attention is given to the formation of the English constitution in the Middle Ages, to the growth of the limited monarchy, and to the evolution of Parliament. Emphasis is given to the characteristic institutions of the English political system and their influence upon other peoples. Throughout the course the social and economic factors which conditioned political changes are stressed. Parallel assignments.

Text-book: Cross's "A Shorter History of England and Greater Britain."

Course 4. AMERICAN HISTORY.—Open to juniors and seniors. Three hours a week throughout the year. Major Williams.

This course is devoted to a general study of American history from the period of British Colonial administration to the present. Emphasis is laid upon the conflict of imperial colonial interest in order to understand the undelying causes of the Revolution and the growth of the spirit of independence and union. Special attention is given to the growth of the West, the development of sectional interest, and the territorial, constitutional, and social aspects of the great conflict over slavery. The gradual change of emphasis from

questions growing out of this conflict and Reconstruction to the problems arising from the rapid economic and industrial development of the nation is carefully traced. Collateral reading and written reports on assigned topics are required.

Text-books: "Political and Social History of the United States;" Vol. I (1492-1828) Crockett; Vol. II (1829-1925) Schlesinger.

Course 5. INTERNATIONAL RELATIONS.—Open to seniors and juniors. Three hours a week throughout the year. Major Williams.

This course is devoted to a study of international relations, including a survey of the general diplomatic situation at the outbreak of the Revolution; American relations with Europe, 1783-1814; Spanish-American revolutions and the Monroe Doctrine; annexations and boundary disputes; foreign relations, 1865-1898; Pan-Americanism; the United States as a world power. Collateral reading and written reports on assigned topics are required.

Text-book: To be Selected.

Course 6. AMERICAN GOVERNMENT AND POLITICS.—Open to juniors. Three hours a week throughout the year. Major Williams.

This course embraces the study of the origin, growth, and development of our government and institutions in both Federal and State Governments. The history and influence of parties; the electoral procedure; the organization and functioning of Congress, and the interrelation of State and National Governments are especially emphasized.

The aim of this course is not only to give the student a clear understanding of the operation of the machinery of his government but also to give him an insight into the responsibilities of citizenship.

Text: Ogg and Ray's "American Government."

DEPARTMENT OF MATHEMATICS.

COL. O. J. BOND, PROFESSOR

CAPT. C. L. HAIR, ASSOCIATE PROFESSOR

CAPT. C. F. MYERS, JR., ASST. PROFESSOR

LIEUT. J. P. BEATY, INSTRUCTOR

The course in mathematics for the first two years is required of all freshmen and sophomores. In the junior year, it is required of those students only who elect courses in engineering and physics. The courses in the senior year are elective for students in engineering and the science courses.

Course 1. COLLEGE ALGEBRA, SOLID GEOMETRY.—Required of all freshmen. Five hours a week; first semester. Captain Myers and Lieutenant Beaty.

At the beginning of the first semester, a short review is made of the elements of algebra, after which some of the topics of higher algebra are studied, and also a brief course in solid geometry.

Text-books: Skinner's "College Algebra;" Wentworth-Smith "Solid Geometry."

Course 2. TRIGONOMETRY.—Required of all freshmen. Five hours a week; second semester. Captain Myers and Lieutenant Beaty.

The second semester is given up to a study of trigonometry, and its applications principally to problems in mensuration and surveying.

Text-books: Bauer and Brooke's "Plane and Spherical Trigonometry."

Course 3. ANALYTIC GEOMETRY.—Required of all sophomores. Three hours a week, both semesters. Captain Hair.

At the beginning of the first semester, a short course of about four weeks is given in spherical geometry, after which

plane and solid analytic geometry is studied until the end of the session. A thorough study of the straight line and the conics is made, and much practice given in exercises requiring the analytic method.

Text-book: Smith and Gale "Analytic Geometry."

Course 4. THE CALCULUS.—Required of juniors electing engineering and physics. Three hours a week; both semesters. Colonel Bond.

The differential calculus is studied from the viewpoint of the theory of limits. In this, and also in the integral calculus which follows it, the application of the principles and methods of the calculus to practical problems in engineering and science is particularly considered.

Text-book: Love's "Differential and Integral Calculus."

Course 5. DIFFERENTIAL EQUATIONS.—Elective in senior year to those who have taken course 4. Three hours a week; first semester. Colonel Bond.

A study is made of the various types of differential equations of the first and second order in connection with practical problems in mechanics, physics, and other topics.

Text-book: Phillip's "Differential Equations."

Course 6. ASTRONOMY.—Senior elective. Three hours a week; second semester. Colonel Bond.

A course in the elements of descriptive astronomy, with special attention to the problems which bear on the profession of the engineer.

Text-book: Todd's "New Astronomy."

DEPARTMENT OF MILITARY SCIENCE AND TACTICS

MAJOR A. G. GOODWYN

MAJOR J. A. MACK

CAPTAIN J. B. DAY

CAPTAIN PAUL B. ROBINSON

INFANTRY UNIT

FRESHMAN CLASS

This course has for its object the symmetrical physical development of each cadet.

Course 1. Physical Training: Methods of hardening and conditioning men; calisthenics and physical exercises; best type of exercises; mass athletics; games; methods in instructing and conducting physical drill. Methods used are those prescribed in the "Manual of Physical Training," by Koehler, physical instructor of cadets, West Point.

The value of this training becomes apparent soon after a cadet joins the battalion. Stoop shoulders disappear, full chest develops and an attitude of strength and manliness results.

Infantry Drill: Close and extended order covering school of soldier, squad and platoon; ceremonies covering principles and minutiae of inspections; reviews, parades and escorts. Freshmen act as privates in this instruction.

Organization: General principles of organization and strength of the Army; details of company, battalion and regimental organization; administration and tactical organization of the Infantry arm of service.

Military Countesy: Historical derivations and relation of discipline to efficiency; historical examples and parallels in civil organization.

Military Hygiene: Personal hygiene; preventive measures against disease and infection; prevention and control of epidemics; first aid to the injured and resuscitation; hygiene of kitchen barracks and camp; foods and their preparation.

Interior Guard Duty: Theoretical instruction covers the entire subject. Practical instruction is by detail of daily guard, freshmen acting as privates.

Infantry Weapons and Equipment: Rifle; nomenclature, care and use, range and gallery practice; bayonet; nomenclature, use, and bayonet training. Infantry pack; nomenclature, use and pitching shelter tents.

SOPHOMORE CLASS

Course 2. Physical Training: Continuation of course for Freshman Class.

Infantry Drill: Continuation of course for Freshman Class. Sophomores act as squad leaders in this instruction.

Military Sketching and Map Reading: Problems in map reading and sketching; problems on the sand table and map; visibility, orientation.

Infantry Weapons: Rifle, automatic rifle and machine guns. Instruction covers nomenclature, care and mechanical operation; interior and exterior ballistics; range practice and the tactical use of these arms as infantry weapons.

Minor Tactics: Principles governing the composition, formation and operation of advance and rear guard, outposts, reconnoitering and combat patrols, messages and reports.

JUNIOR CLASS

Course 3. Physical Training: Continuing of course for Sophomore Class.

Infantry Drill: Continuation of course for Sophomore Class. Juniors act as section leaders and section guides:

Infantry Weapons: Pistol; nomenclature, care and handling, use of and firing; hand and rifle grenades; nomenclature, care and handling, carrying and throwing; trench mortars and one pounders; nomenclature, characteristics, powers and limitations, gun and mortar drill handling in connection with tactical exercises; tactical walk and map exercises.

Minor Tactics: Offensive and defensive conduct of small units, combat reconnoissance, orders, deployment, advancing the attack, the fire attack, the assault, position warfare, organization of the ground, ammunition supply, map maneuvers, terrain, sand table and map exercises, tactical walks.

Field Engineering: Elements of field engineering; solution of military engineering problems; demonstration on sand table, construction on sand table; construction of miniature models of all types of trenches and obstacles; reconnoissance, locating and laying out trenches.

SENIOR CLASS

Course 4. Physical Training: Continuation of course for Junior Class.

Military History and Policy of the United States: Important campaigns and battles in the history of the United States and the tactical deductions therefrom; history of the military policy of the United States, including the period of the World War; economic history of the United States and its relation to military history.

Infantry Drill: Continuation of course for Junior Class. Seniors act as leaders and instructors of the platoon and company tactical exercises.

Military Law and Rules of Land Warfare: Articles of war, relation of military to civil authority; jurisdiction,

organization, procedure, evidence, rules of, as contained in the Manual for Courts-martial, U. S. Army; general knowledge and principles of rules for land warfare; practical work; "Moot Courts."

Administration: Company paper work and administration.

Musketry: Principles of musketry, musketry problems, exercises on map and on the ground, tactical walks, firing on auxiliary targets.

COAST ARTILLERY UNIT

FRESHMAN CLASS

Course 1. Physical Training: Methods of hardening and conditioning men; calisthenics and physical exercises; best type of exercises; mass athletics; games; methods of instruction and conducting physical drill. Methods used are those prescribed in Manual of Physical Training by Koehler, physical instructor of cadets, West Point.

The value of this training becomes apparent soon after a cadet joins the battalion. Stoop shoulders disappear, a full chest develops and an attitude of strength and manliness results.

Infantry Drill: Close and extended order covering school of soldier, squad and platoon; ceremonies covering principles and minutiae of inspections, reviews, parades and escorts. Freshmen act as privates in this instruction.

Organization: General principles of organization and strength of the Army; details of company, battalion and regimental organization; administration and tactical organization of the Coast Artillery Corps.

Military Courtesy and Discipline: Historical derivation, and parallels in civil organization.

The cadets live under constant military supervision and are required to observe at all times the strictest forms of courtesy and discipline.

Military Hygiene: Personal hygiene; preventive measures against disease and infection; prevention and control of epidemics; first aid to the injured and resuscitation; hygiene of kitchen, barracks and camp; foods and their preparation.

Interior Guard Duty: Theoretical instruction covers the entire subject. Practical instruction is by detail of daily guard, freshmen acting as privates.

SOPHOMORE CLASS

Course 2. Physical Training: Continuation of course for Freshman Class.

Infantry Drill: Subjects are the same as those for the Freshman Class, Sophomores acting as squad leaders. This marks the beginning of the development of the power of command and the control of the men. The training is so carried out as to develop in the cadet abilities that will be of the greatest benefit to him in his civil career.

Orientation: Map making and map reading, topography and sketching. This course develops in the cadet the power of observation and an appreciation of the possibilities of the different features of terrain for civil as well as military purposes.

Infantry Weapons: Rifles, automatic rifle and machine gun. Instruction covers nomenclature, care and mechanical operation, interior and exterior ballistics, range practice and the tactical use of these arms as infantry weapons.

Artillery Materiel: Description, care and operation of guns, howitzers and mortars manned by the Coast Artillery Corps; artillery ammunition, including projectiles, explosives, fuses and primers; mechanical maneuvers; fire control material used in fixed fortifications. Practical instruction is carried out largely by visits on Saturdays to Forts Moultrie and Sumter. These trips are always of interest and great value to the cadet.

JUNIOR CLASS

Course 3. Physical Training: Continuation of course for the Sophomore Class.

Infantry Drill: Subjects are the same as those for the Sophomore Class, Juniors acting as section guides and section leaders. This takes the cadet one more step forward in the development of his ability of leadership.

Orientation: Orientation for heavy artillery; seacoast engineering. This course is closely allied to that in the Civil Engineering Department, but for those not taking Civil Engineering a more liberal course is prepared.

Artillery Materiel: Guns, mortars and howitzers and fire control equipment for heavy mobile artillery. This course is a continuation and advancement of that given in the Sophomore year, and the advantage to the cadet in his liberal education is of constant concern.

Field Engineering: Construction of emplacements, dugouts and firing positions; camouflage, hasty repair of roads and bridges. This course gives the cadet practice in the control of working parties; and imparts to him much knowledge and limitations of men and material in engineering construction, particularly in their application to grading, roads and bridges.

Motor Transportation: The gasoline engine; care, maintenance and operation of motor vehicles; convoys and road discipline. This course is not intended to make automobile mechanics, but to give the cadet a thorough understanding of the fundamental principles of the gasoline engine, and the application of these principles to some of the more common types of automobile engines. The cadet is given practice in taking down and putting up the gasoline engine of a five-ton tractor, driving tractors and trucks.

SENIOR CLASS

Course 4. Physical Training: Continuation of course for lower classes, Seniors acting as instructors.

Infantry Drill: Subjects are the same as those in the Junior year, Seniors acting as platoon leaders. The qualities of leadership have been steadily developed until the cadet is prepared to take up the instruction of a platoon.

Military Policy and Military History: Military policy of the United States before, during, and since the World War; military history of the United States; important campaigns of the United States, including those of the World War.

Military Law: Basic principles; duties of company or battery officer; courts-martial; relations between civilian and soldier; martial law and military government; rules of land warfare.

Administration: Basic principles of army administration; detailed study of company and battery administration, and supply in garrison and in the field; preparation of forms, returns and reports.

Gunnery: Principles of exterior ballistics; principles of gunnery for heavy artillery; means and methods of determination of firing data; observation, adjustment and control of fire.

Employment of Artillery: Basic tactical principles involved in the selection of types of artillery; duties of battery officer in connection with reconnoissance for and the selection and occupation of battery positions; communications; tactical problems.

Puff Board: Practical application of all the principles of gunnery in figuring firing data, observation, adjustment and control of fire.

DEPARTMENT OF MODERN LANGUAGES

MAJOR H. C. WINSHIP, PROFESSOR

CAPTAIN A. E. DUFOUR, ASSOCIATE PROFESSOR

LIEUTENANT B. KELLY, ASST. PROFESSOR

All cadets are required to take French in the Freshman and Sophomore classes. In the Junior class all language courses are elective. A student with linguistic ability may continue French and elect either Spanish or German.

N.B.—None of the electives will be given unless the number of students applying warrants the formation of a section.

FRENCH

French I. ELEMENTARY.—Three hours a week, required of all Freshmen except those who elect French 1a. Major Winship, Captain Dufour, Lieutenant Kelly.

In this course the elements of French grammar are studied, and special attention is given to smooth translation, practice in grammatical forms, pronunciation and translation of exercises into French. The first 32 lessons of Fraser and Squair's Elementary French grammar are completed, and during the second semester one period a week is devoted to reading a simple French text.

Text-books: Fraser and Squair; Elementary French Grammar; Kurz's "Lectures Pour Tous."

French 1a. Three hours a week. May be elected by Freshmen who enter with two or more years of French. Captain Dufour.

This course is offered to those who prefer to utilize their knowledge of French in an advanced class, rather than stagnate in French 1. No extra credit is given. This course will not be given unless from 22 to 26 students elect it. Much

stress will be placed on reading in this course. A rapid review of grammar will be made and drill in the irregular verbs given.

Text-books: Carnahan's "French Review Grammar." Texts for reading to be announced later.

French II. Three hours a week. Required of all sophomores except those who have completed French Ia. Captain Dufour.

The stress in this course is on the translation of French texts. These are changed from year to year. Fraser and Squair is completed. The principal irregular verbs are thoroughly studied. Constant effort is made to perfect the student's pronunciation.

Text-books: Fraser and Squair; Beginners' French (completed). Halvéy: Un Mariage d'Amour, de Maistre: Les Prisonniers du Cancase; Kuhne-Hooke: Contes du Petit Parisien.

French IIa. Three hours a week. For those Sophomores who elected French Ia in the Freshman year. Captain Dufour. Will not be given in 1926-27.

A continuation of course Ia.

French III. Three hours a week. Junior elective. Major Winship.

This course introduces the student to French literature. A brief survey of its history from the earliest times through the seventeenth century is made. Works of Corneille, Molière, and Racine are the objects of careful study in class. Other works of these authors are assigned for private reading and written reports. One hour a week is devoted to composition.

Text-books: Martin and Russell: At West Point; Corneille: Le Cid; Molière: Le Bourgeois Gentilhomme and Le Tartuffe; Racine: Phédre; Duval: Petite Histoire de la Littérature Française.

French IV. Three hours a week. Open only to those seniors who have completed French III. Major Winship.

In this course a rapid survey is made of 18th and 19th century French literature. The texts used in the class-room are works of Chateaubriand and Hugo. A careful study is made of the Romantic Movement. One hour a week is devoted to composition.

Text-books: Duval: *Histoire de la Littérature Française* (completed); Martin and Russell: at West Point (completed); Chateaubriand *Atala* and *René*; Hugo: *Preface de Cromwell* and *Hernani*.

SPANISH

Spanish I. Three hours a week. Junior elective. Major Winship.

A thorough grounding in the essentials of Spanish grammar is given in this course. Daily exercises in the translation of English into Spanish and Spanish into English are assigned. Verb blanks are filled out daily and at the end of the course all the principal irregular verbs have been learned. During the second semester one period a week is devoted to the reading of a Spanish text.

Text-books: Hills and Ford: *First Spanish Course*; Alarcón: *El Capitán Veneno*.

Spanish II. Three hours a week. Intended primarily for members of the Business elective who have completed Spanish I. Major Winship.

This course is devoted entirely to commercial Spanish. The Spanish texts all deal with various phases of the commercial world. One period a week is devoted to the translation of business letters into Spanish.

Text-books: Ray and Bahret: *Correspondencia Práctica*; McHale: *Commercial Spanish*; Harrison, *A Spanish Commercial Reader*.

Spanish III. Three hours a week. Senior elective. This course is offered primarily for those seniors of the English or History elective who have completed Spanish I. Major Winship.

In this course an attempt will be made to familiarize the student with a few of the masterpieces of Spanish literature. Especial attention will be given to Cervantes' "Don Quijote." One period a week will be given to Spanish composition.

Text-books: Umphrey: Spanish Prose Composition; Ford: Selections from "Don Quijote." Other texts to be announced later.

GERMAN

German I. Three hours a week. Junior elective. Major Winship.

The object of this course is to give the student a thorough-grounding in the essentials of German grammar, in pronunciation, in ability to translate from English into German. During the second semester, one period a week is devoted to the reading of a simple German text.

Text-books: Vos: Essentials of German, 5th Edition. Texts for reading vary from year to year.

German II. Three hours a week. Open only to those seniors who have completed German I. Will not be given during the year 1926-27.

DEPARTMENT OF PHYSICS AND ELECTRICAL ENGINEERING

MAJOR N. F. SMITH, PROFESSOR

CAPTAIN D. S. MC ALISTER, ASSISTANT PROFESSOR

LIEUTENANT T. G. CAREY, ASSISTANT PROFESSOR

This Department occupies the entire second floor and part of the first floor of the east wing of the Administration Building. On the second floor are two lecture rooms, two general laboratories and apparatus room and special laboratories for special purposes. On the first floor are located the work-shop, dynamo laboratory, and storage-battery room. The arrangement and equipment of the laboratories and lecture rooms is modern and complete. A good supply of apparatus and measuring instruments gives every needed facility for individual experiment and demonstration work.

The enlarged facilities afforded by the new plant have warranted a corresponding enlargement in the scope of the courses offered, so as to meet the needs of students who are looking forward to the profession of electrical engineering. While The Citadel does not offer a complete course in electrical engineering, the work done in this department, together with the required courses in mathematics, descriptive geometry and drawing, cover the fundamental principles of the subject.

Students choosing Physics as a major subject must take all the courses offered in the department. Other students may elect any of the junior or senior courses for which they have the necessary preparation. Students majoring in Physics must take the Junior Mathematics (Calculus), and are advised to elect Mathematics in the senior year.

Course 1. ELEMENTARY COLLEGE PHYSICS.—Two hours a week lectures and recitations and two hours a week laboratory practice. Required of all freshmen. Major Smith, Captain McAlister and Lieutenant Carey.

This course assumes no previous knowledge of Physics, and consists of lectures, demonstration experiments and problems presented as simply and directly as possible. It covers the entire field of general physics, including mechanics, heat, electricity, sound and light, in so far as time permits. The laboratory work consists of about thirty individual quantitative experiments based on the fundamental principles of the topics studied in the lecture room.

Text-book: Stewart "Physics."

Course 2. ADVANCED GENERAL PHYSICS.—Lectures and recitations. Three hours a week. Junior elective. Major Smith.

In this course special attention will be given to physical principles and problems related to engineering. The more difficult and mathematical phases of the subject which have been omitted from Course 1 will be taken up, thus rounding out the student's knowledge of general physics.

Text-book: Duff's "College Physics."

Course 3. LABORATORY PHYSICS.—Six hours a week. Junior elective. Major Smith.

Except for necessary explanation, discussion and problem work based on the experiments, the entire time of this course is devoted to work in the laboratory. The experiments are of a more advanced character than those included in Course 1, and involve the use of most of the standard instruments of physical measurement. About seventy experiments are performed, affording a study from the laboratory standpoint of most of the topics considered in Course 2.

Course 4. ADVANCED PHYSICS.—Lectures and recitations, three hours a week; laboratory work, six hours a week. Senior elective. Major Smith.

The subject matter of this course will be varied from year to year to meet the needs of the students electing it. The course for 1925-1926 is as follows:

First Term: Wave motion, sound and light. The general equations of wave motion are developed and a study is made of their application to sound and to all the forms of radiant energy.

Second and Third Terms: The general principles of radio communication. As an introduction to this part of the course some time is spent on measurements of magnetic circuits, inductance and capacity. The remainder of the course is devoted to a study of the theory and practice of radio-telegraphy and telephony.

Text-book: Lauer and Brown's "Radio Engineering Principles."

Optional courses will be offered in other years in Thermodynamics, Physical Optics, or further work in electrical engineering.

Course 5. ELEMENTARY ELECTRICAL ENGINEERING.—Laboratory work, four hours a week; lecture or recitation, one hour. Senior elective. Major Smith.

In this course a study is made from the laboratory standpoint of the principal types of direct and alternating current generators and motors, and of motor-generators, rectifiers and transformers. The machines are operated under practical working conditions, and their characteristics curves obtained. The first half of the year is devoted to a study of direct current machinery, and the second half to alternating currents.

DEPARTMENT OF BUSINESS ADMINISTRATION

CAPTAIN V. H. DASSEL, PROFESSOR

MR. A. L. GEISENHEIMER, ASST. PROFESSOR

Modern Business has become so complex in its organization and conduct that it is no longer possible, desirable or necessary to learn it, as was formerly done, by the method of apprenticeship. Much of what was once learned by apprenticeship can be more easily and quickly acquired by instruction, and the student can readily secure an understanding of the more fundamental principles. It is wasteful to have an individual learn by costly experience what has already been discovered. Training in business is based upon the fact that experience and knowledge have become so systematized and organized that there exists a body of principles for scientific study. It is the purpose of this department to give the student a training in the fundamental principles of Accounting and Business Administration, which, with supplementary experience will prepare the graduate for more responsible positions. Such promotes the progress of the business man.

Students electing Business Administration are required to take Spanish and one approved elective in another department.

Course 1. PRINCIPLES OF ACCOUNTING.—Required of all juniors who elect Business Administration. Five hours a week; first semester. Captain Dassel.

This is an elementary course in accounting introducing the law of debit and credit, the function of accounts and financial statements.

Text-book: Kester's Accounting Theory and Practice.

Course 2. PRINCIPLES OF ACCOUNTING.—Required of all juniors who elect Business Administration. Five hours a week; second semester. Captain Dassel.

A continuation of Course 1. A more thorough study being made of Adjusting and Closing Entries, Partnership, Corporations, and the various books of record.

Text-book: Kester's Accounting Theory and Practice.

Course 3. PRINCIPLES OF BUSINESS.—Required of all juniors who elect Business Administration. Three hours a week; first semester. Captain Dassel.

A study is made of Financing, Management Wages and Wage Systems, Control of Labor, Purchasing, and Selling. This course will give the student a view of business as a whole, which he should have before specializing in certain departments.

Text-book: Principles of Business; Gerstenberg.

Course 4. BUSINESS LAW.—Required of all juniors who elect Business Administration. Three hours a week; second semester. Captain Dassel.

Deals with the subjects of Contracts, Agency, Partnership, Corporations, Sales, and Negotiable Instruments. Considerable time will be spent in the study of cases.

Text-book: Conyngton-Bergh's Business Law.

Course 5 and 5a. ECONOMICS.—Required of all juniors who elect Business Administration. Three hours a week; two semesters. Mr. Geisenheimer.

The work in this course is designed particularly to meet the needs of students who are preparing to enter business, law, government service, and social work. It will be of aid to other students for effective citizenship by giving them a basis for clear thinking about modern problems.

Text-book: Ely's Principles of Economics; Keir Industrial Organization.

Course 6. SALESMANSHIP.—Senior elective. Three hours a week; first semester.

The essentials of personal salesmanship are considered. Problems in retail and wholesale selling are studied in detail. Modern methods of Sales Management are studied as given by Magazines in that field.

Text-book: Sheldon: The Art of Selling; Whitehead: The Principles of Salesmanship.

Course 7. TRANSPORTATION.—Senior elective. Three hours a week; first semester.

This course is an introduction to the study of Transportation and treats of such subjects as Organization and Functions of Railways, Railway Geography, Principles of Railway Rates, Railway Rates in Practice, Freight Traffic Arrangements and Government Regulation in the United States.

Text-book: Business of Railway Transportation; Haney.

Course 8. MARKETING.—Senior elective. Three hours a week; second semester.

This is a basic course in the principles and methods of marketing. Attention is given to the marketing of raw materials and manufactured products, and the characteristics of the wholesale and retail trade. Each student will be given same commodity and will be required to trace it from the producer to the consumer, showing the various organizations that effect it.

Text-book: Marketing Methods and Policies; Converse.

Course 9. PRINCIPLES OF ADVERTISING.—Senior elective. Three hours a week; second semester.

A practical presentation will be made of the elements entering into the preparation of advertising plans and campaigns. Discussion of advertising media and their adaptability to different kinds of products. Class-work in preparation of lay-out, copy-plans, and campaigns.

Text-book: To be selected later.

Course 10. CREDIT MANAGEMENT.—Senior elective. Three hours a week; first semester.

A thorough course covering the entire field of credits and collections. Making a careful study of the types of credit, credit information, the credit department and collection procedure.

Text-book: Credit Management; Olson and Hallman.

Course 11. FINANCIAL ORGANIZATION AND MANAGEMENT.—Senior elective. Three hours a week; second semester.

An advanced study of Business Organization and Financing. Dealing with such subjects as Comparison of Forms of Organization, Borrowing, Management of Income, Dividend Policies and Intercompany Relations.

Text-book: Financial Organization and Management; Gerstenberg.

Courses 12 and 13. ADVANCED ACCOUNTING.—Senior elective. Five hours a week; first and second semesters. Captain Dassel.

A course offered to those intending to enter the accounting field. A thorough study is made of the corporation, its accounting and financial problems. Attention being given to capital stock, its issue and redemption; treasury stock, no-par value stocks, profits, reserves, sinking funds, combinations and consolidations and branch accounting.

The student is required to complete a practice set and work a number of problems.

Text-book: Accounting Theory and Practice; Kesters.

Courses 14 and 15. COST ACCOUNTING.—Senior elective. Three hours a week; first and second semesters. Captain Dassel.

A course open to students who are taking course 12, or with permission of the instructor.

A complete study is made of cost accounting records, costs, labor, expense and burden and budgeting methods.

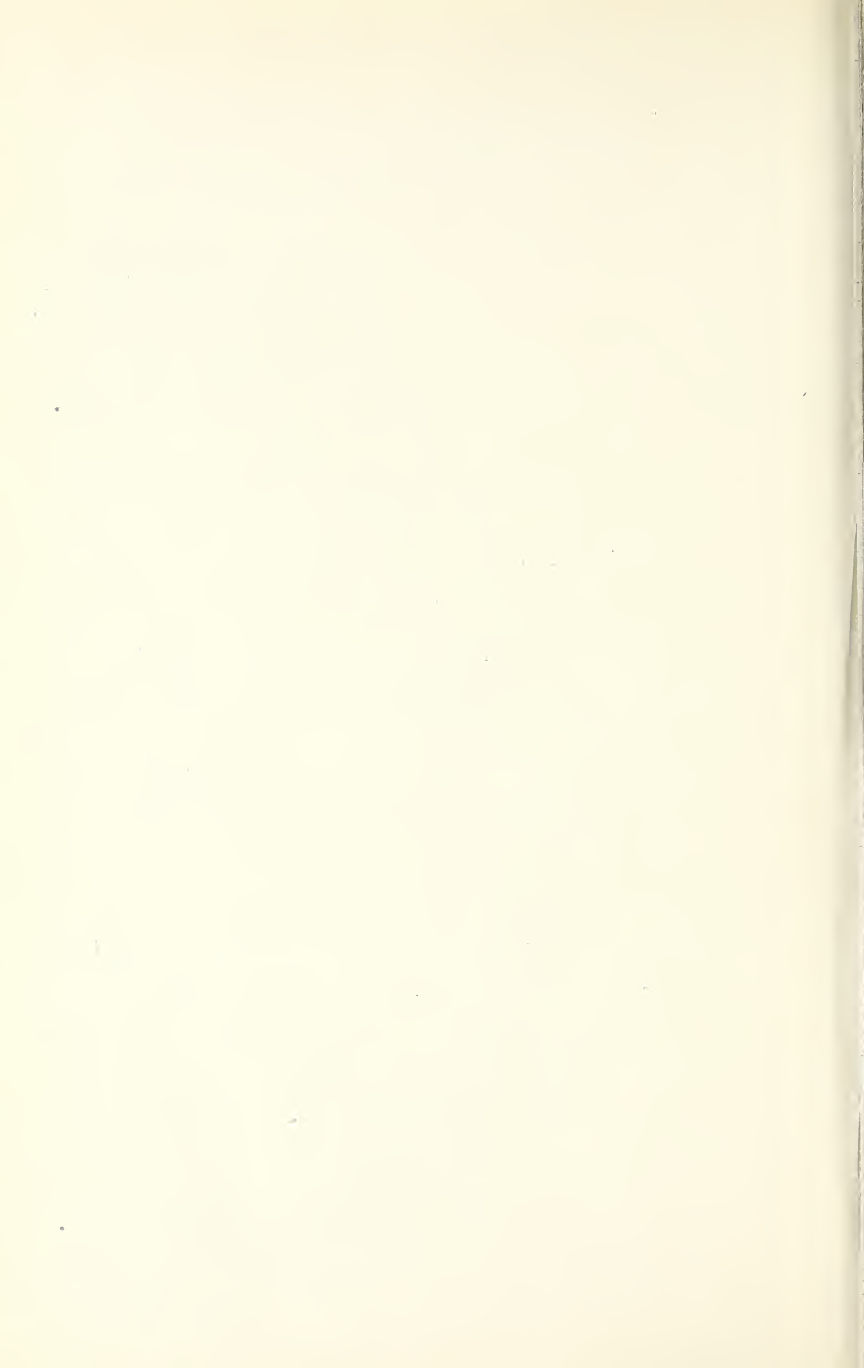

Text-book: Cost Accounting; Lawrence.

Course 16. AUDITING.—Senior elective. Three hours a week; first semester. Captain Dassel.

A practical course making a study of various types of audits, special examinations, investigations and methods of the professional auditor. This requires the study of special cases and working a number of problems taken from C.P.A. Examinations.

Text-book: Auditing; Bell and Powelson.

PART IV

ASSOCIATION OF GRADUATES

The Association of Graduates, organized in 1877, has been an active agent in promoting the best interests of the Alma Mater. The annual meeting and supper are held at The Citadel at the time of the Commencement Exercises in June.

OFFICERS

GEO. C. ROGERS, '10, <i>President</i>	Charleston, S. C.
WM. S. LYKES, '10, <i>First Vice-President</i>	Columbia, S. C.
R. W. HUDGENS, '15, <i>Second Vice-President</i>	Greenville, S. C.
JNO. W. MOORE, '00, <i>Third Vice-President</i>	Florence, S. C.
THOS. P. LESESNE, '01, <i>Treasurer</i>	Charleston, S. C.
MILTON A. PEARLSTINE, '19, <i>Secretary</i>	Charleston, S. C.

DIRECTORS

W. W. BENSON, '07.....	Greenwood, S. C.
J. D. PARKS, '10	Greenville, S. C.
W. P. BOWERS, '18.....	Hampton, S. C.
W. G. THOMPSON, '14.....	New York City
W. W. SMOAK, '00.....	Walterboro, S. C.

CITADEL CLUBS

ANDERSON COUNTY CITADEL CLUB:

President—Col. P. K. McCully, Anderson, S. C.
Secretary—Mr. J. T. West, Belton, S. C.

CHARLESTON COUNTY CITADEL CLUB:

President—Mr. J. C. Cogswell, Charleston, S. C.
First Vice-President—Mr. T. B. Allen, Charleston, S. C.
Second Vice-President—Mr. John Laurens, Charleston, S. C.
Secretary—Mr. J. E. Griffin, Charleston, S. C.
Treasurer—Mr. A. F. Heinsohn, Charleston, S. C.

DARLINGTON COUNTY CITADEL CLUB:

President—
Vice-President—Mr. T. E. Wilson, Darlington, S. C.
Secretary-Treasurer—Mr. W. E. James, Darlington, S. C.

FLORENCE COUNTY CITADEL CLUB:

President—Mr. H. A. Smith, Florence, S. C.
Vice-President—Mr. N. E. Rogers, Florence, S. C.
Secretary—Mr. W. J. Maxwell, Florence, S. C.
Treasurer—Mr. M. C. Stuckey, Florence, S. C.

GREENVILLE COUNTY CITADEL CLUB:

President—Mr. James Anderson, Greenville, S. C.
Vice-President—Mr. R. L. Meares, Jr., Greenville, S. C.
Secretary—Capt. R. W. Hudgens, Greenville, S. C.

GREENWOOD COUNTY CITADEL CLUB:

President—Mr. S. A. Porter, Greenwood, S. C.
Secretary and Treasurer—Mr. R. A. Seymour, Greenwood, S. C.

RICHLAND COUNTY CITADEL CLUB:

President—Dr. Jas. A. Hayne, Columbia, S. C.
Vice-President—Mr. John H. Bollin, Columbia, S. C.
Vice-President—Mr. S. C. Strohecker, Columbia, S. C.
Secretary—Mr. J. M. Cantey, Columbia, S. C.

SPARTANBURG COUNTY CITADEL CLUB:

President—Major John D. Frost, Spartanburg, S. C.
Secretary—Major C. C. Wyche, Spartanburg, S. C.

SUMTER COUNTY CITADEL CLUB:

President—Mr. E. W. Dabbs, Jr., Mayesville, S. C.

YORK COUNTY CITADEL CLUB:

President—Mr. Hiram Hutchison, Rock Hill, S. C.
Vice-President—Mr. G. C. McCelvey, Rock Hill, S. C.
Secretary-Treasurer—Mr. W. T. Barron, Fort Mill, S. C.

GRADUATES OF THE CITADEL

NOTE.—Any person knowing of errors in the following register of graduates will confer a favor by sending corrections and information to the President. Graduates whose name are in *italics* are dead.

CLASS OF 1846.	REMARKS.
1— <i>C. C. Tew</i> , Founder and Principal, Hillsboro Military Academy; Col. N. C. Troops, C.S.A.; killed at battle of Sharpsburg, 1862.	
2— <i>R. G. White</i> , Physician; Maj. 10th S. C.; Died 1875.	
3— <i>C. O. Lamotte</i> , Lawyer; Captain P.A.C.S.; Died 1883.	
4— <i>John L. Branch</i> , Civil Engineer; Colonel First S.C.M., C.S.A. Died 1894.	
5— <i>W. J. Magill</i> , Prof. Math. Georgia Mil. Inst.; Col. 1st Ga. Reg.; C.S.A.; Lost left arm at Sharpsburg; Died 1890.	
6— <i>John H. Swift</i> , Civil Engineer; Died 1893.	

CLASS OF 1847.
7— <i>Johnson Hagood</i> , Brig. Gen., C.S.A.; Governor of South Carolina; Ch. Board Visitors 1877-1898; Died 1898.
8— <i>E. L. Heriot</i> , Civil Engineer; Died 1903.
9— <i>S. B. Jones</i> , D.D., Minister; President Columbia College; Died 1894.
10— <i>J. P. Southern</i> , Banker.

CLASS OF 1848.
11— <i>H. Oliver</i> , Civil Engineer; Died 1853.
12— <i>A. Buist</i> , Captain S.C.V., C.S.A.; Minister; Died 1903.
13— <i>J. W. Gregory</i> , Captain Engineers, C.S.A.; Planter.
14— <i>H. D. Kennedy</i> , Prof. History, Arsenal Academy; Died 1861.
15— <i>F. F. Warley</i> , Lawyer; Major Second Regiment S. C. Art., C.S.A.; Wounded siege of Charleston, 1863; Died 1876.
16— <i>H. L. Brantley</i> , Civil Engineer.
17— <i>J. J. Matthews</i> , Major Georgia Volunteers, C.S.A.
18— <i>A. J. Jamison</i> , Volunteer Service, C.S.A.
19— <i>J. D. Powell</i> , Captain P.A.C.S.

CLASS OF 1849.
20— <i>P. F. Stevens</i> , Supt. Citadel '59-61; Col. Holcomb Legion, C.S.A.; Bishop Reformed Episcopal Church; Died 1910.
21— <i>U. A. Rice</i> , Capt. 48th Ga. Vol., C.S.A.; Physician; Georgia.
22— <i>J. T. Zeaely</i> , Minister; President Winona Female Institute; Miss.
23— <i>H. L. Thurston</i> , Lawyer; Died 1861.

CLASS OF 1849—*Continued.*

REMARKS.

- 24—*J. B. White*, Superintendent Citadel Academy, 1861-1865; Died 1906.
- 25—*G. B. Lartigue*, Physician; Major on General Hagood's Staff, C.S.A.
- 26—*W. G. Inglesby*, Physician.
- 27—*G. H. Bunker*, Civil Engineer; Died 1857.
- 28—*J. A. Walker*, Minister, Texas.
- 29—*H. W. Stewart*, Engineer Corps, C.S.A.
- 30—*T. E. Strother*, Lieutenant City Guard, Charleston; Died 1903.
- 31—*W. M. Morgan*, Bookkeeper.

CLASS OF 1850.

- 32—*D. H. Eggleston*, Professor, Mount Zion College, Winnsboro; Died 1855.
- 33—*J. A. Houser*, Captain Ga. Vol., C.S.A.; Planter, Georgia; Died 1910.

- 1073—W. L. McKittrick, Lieut., U.S.M.C.
- 1074—F. E. Zemp, Episcopal Hospital, Philadelphia, Pa.
- 1075—W. P. Bowers, Lieut., Inf., N. A.; Hampton, S. C.
- 1076—T. C. Sparks, Lieut., N.A.; Dentist, Conway, S. C.
- 1077—L. C. Waring, Lieut., Inf., N.A.; Cotton Business, Charleston, S. C.
- 1078—F. L. Gaffney, Ensign, Supply Corps, U.S.N.
- 1079—J. E. White, Lieut., F.A.N.A.; Teacher, Fulton High School, Atlanta, Ga.
- 1080—J. L. Dicks, Lieut. U.S.A.
- 1081—H. W. Carter.
- 1082—W. J. Wallis, Lieut., Inf., N.A.; in Business, Macon, Ga.
- 1083—E. N. Thurston, Lieut., Inf., N.A.; Bank Clerk, Charleston, S. C.
- 1084—H. E. Platt, Student Medical College, S.C., Charleston, S. C.

CLASS OF 1918— <i>Continued.</i>	REMARKS.
1085—J. B. Gambrell, Cotton Mill Business, Gastonia, N. C.	
1086—B. C. Boland, Inf., N.A., Springfield, S. C.	
1087—A. Middleton, Lieut., Inf., N.A.; in Business, Charleston, S. C.	
1088—H. W. Tarkington, Lieut., U.S.A.	
1089—K. L. Simons, Lieut., U.S.M.C., Charleston, S. C.	
1090—K. F. Sneider, Lieut., N. A.	

CLASS OF 1919.

1091—F. E. Cothran, Lieut., U.S.A.	
1092—I. W. Kee's, Salesman, McColl, S. C.	
1093—H. C. Jones, Civil Engineer, Walterboro, S. C.	
1094—M. Surasky, Aiken, S. C.	
1095—A. T. Brown, Division Engineer, State Highway Com., Orangeburg, S. C.	
1096—J. T. Witsell, Real Estate and Insurance, Charleston, S. C.	
1097—J. H. Sanders, Student, Medical College of S.C., Charleston, S. C.	
1098—W. C. Huggins, Lieut., U.S.A.	
1099—W. C. Wolfe, Teacher, Lawndale, N. C.	
1100—J. D. Fuller, Teacher, Hot Springs, Va.	
1101—A. S. Revnolds, Stevens Yarn Co., Charlotte, N. C.	
1102—W. C. Hane, Commandant Cadets, Los Angeles, Cal.	
1103—J. K. Coleman, Asst. Prof. of History, The Citadel.	
1104—J. W. Wilson, Teacher, Chester, S. C.	
1105—J. B. Hart, Clinton, S. C.	
1106—L. E. Bush, Farmer, Ellenton, S. C.	
1107—M. K. Jeffords, Cotton, Columbia, S. C.	
1108—A. L. Street, Ship Broker, Charleston, S. C.	
1109—G. W. Nicholson, Lawyer, Camden, S. C.	
1110—J. J. Still, Asst. Engineer, So. Ry., Knoxville, Tenn.	
1111—M. A. Pearlstine, Asst. Treasurer. I. M. Pearlstine & Sons, Charleston, S. C.	
1112—J. H. Coleman, 119 Eddy St., Ithaca, N. Y.	
1113—G. T. Hagan, Teacher, Lake City, S. C.	
1114—J. H. Rivers, Principal School, Duncan, S. C.	
1115—T. T. Dill, Teacher, Taylors, S. C.	
1116—J. R. Lawton, State Park, S. C.	
1117—F. A. Thompson, Salesman, 11 King St., Charleston, S. C.	
1118—M. L. Bush, Greensboro, N. C.	
1119—T. C. Cannon, Minister, Pickens, S. C.	
1120—F. W. Ford, Engineer, State Highway Com., Columbia, S. C.	
1121—E. J. McManus, Civil Engineer, Tryon, N. C.	
1122—J. C. McGowan, Banking, Cross Hill, S. C.	
1123—E. W. Rugheimer, Insurance, 14 Liberty St., Charleston, S. C.	
1124—Sinkler Warley, Cotton, Charleston, S. C.	

CLASS OF 1919—*Continued.*

REMARKS.

- 1125—Chester Alexander, Minister, Chester, S. C.
- 1126—T. E. Dunbar, Civil Engineer, So. Power Co., Belmont, N. C.
- 1127—W. W. Wannamaker, Civil Engineer, Supt. Contracting Co.,
Parkston, N. C.
- 1128—C. J. Dunston, State Highway Dept., Greenville, S. C.

CLASS OF 1920.

- 1129—E. B. Smith, Vice-Pres. Battle & Co., Mfg. Chemist, 1409
Perishing Ave., St. Louis, Mo.
- 1130—R. P. Williams, Civil Engineer, Atlanta, Ga.
- 1131—C. E. Moore, Student, University of Chicago.
- 1132—J. B. Middleton, Standard Oil Co., Charleston, S. C.
- 1133—T. C. Latimer, Civil Engineer, Columbia, S. C.
- 1134—R. E. Seymour, Teacher, Greer, S. C.
- 1135—H. V. Bradley, Civil Engineer, Sumter, S. C.
- 1136—V. A. Crawford, Minister, Brevard, N. C.
- 1137—S. M. Sanders, Sec'y Charleston Crockery Co., Charleston, S. C.
- 1138—P. C. Doyle, Standard Oil Co., Charleston, S. C.
- 1139—J. C. Rainsford, State Highway Com., Greenwood, S. C.
- 1140—W. Evans, Medical Student, Charleston, S. C.
- 1141—W. E. Whaley, Standard Oil Co., Charleston, S. C.
- 1142—W. J. Jackson, Cotton, Bowman, S. C.
- 1143—W. J. Maxwell, Merchant, Florence, S. C.
- 1144—G. C. Carrington, Lieut., U.S.A.
- 1145—J. L. Whitten, Student, Princeton University.
- 1146—B. R. Linley, State Highway Com., Columbia, S. C.
- 1147—G. H. Allen, Newspaper Work, Asheville, N. C.
- 1148—P. G. Hasell, Standard Oil Co., Charleston, S. C.
- 1149—J. P. Thomas, Teacher, Columbia, S. C.
- 1150—J. E. Griffin, Teacher, High School of Charleston, S. C.
- 1151—W. E. James, Tobacco Business, Darlington, S. C.
- 1152—J. J. Padgett, Law Student, Walterboro, S. C.
- 1153—R. S. Baynard, State Board of Health, Fairfax, S. C.
- 1154—L. Arthur, Public Health Service, Georgetown, S. C.
- 1155—A. W. Riley, Forsyth St., Jacksonville, Fla.
- 1156—M. S. McFadden, Merchant, Kingstree, S. C.
- 1157—G. W. Smith, Teacher, Union, S. C.
- 1158—T. B. Hayne, Student, Medical College of S. C., Charleston, S. C.

CLASS OF 1921.

- 1159—H. M. Arthur, Merchant, Union, S. C.
- 1160—W. J. Gooding, Engineer, State Highway Commission, Colum-
bia, S. C.
- 1161—J. A. Tiedemann, Teacher, Charleston High School, Charles-
ton, S. C.
- 1162—O. C. Mood, 1st Lieut., U.S.A.
- 1163—H. J. Jaeger, Student, Georgia School of Tech., Atlanta, Ga.
- 1164—P. J. McLean, Missionary, China.

CLASS OF 1921—*Continued.*

- 1165—R. B. Jarvis, Teacher, High School of Charleston, S. C.
- 1166—A. F. Heinsohn, Accountant, Charleston, S. C.
- 1167—J. O. Kelly, 1st Lieut., C.A.C.
- 1168—J. S. Lewis, Medical Student, Charleston, S. C.
- 1169—A. G. Hampton, Engineer State Highway Com., Lykesland, S. C.
- 1170—T. W. Williamson, Student, Univ. of N. C., Chapel Hill, N. C.
- 1171—C. P. Hayes, Teacher, G.M.A., College Park, Ga.
- 1172—E. R. Morgan, Civil Engineer, Gastonia, N. C.
- 1173—W. H. Harter, Fairfax, S. C.
- 1174—T. W. Ross, Lieut., U.S.A., Ret., Mil. Acad., Spring Hill, Tenn.
- 1175—E. C. Perry.
- 1176—L. C. Whitaker, Lieut., U.S.M.C.
- 1177—J. D. Whaley, Medical Student, Charleston, S. C.
- 1178—Virgil Harvey, Teacher, Monck's Corner, S. C.
- 1179—J. L. Platt, Lawyer, Dillon, S. C.
- 1180—J. P. Cartrette, Superintendent of Schools, Cope, S. C.
- 1181—W. O. Brice, Lieut., U.S.M.C.
- 1182—E. A. Pollock, Lieut., U.S.M.C.
- 1183—R. L. Brunson, Riverside Military Academy, Gainesville, Ga.
- 1184—B. N. Singleton, Teacher, Westminster, S. C.
- 1185—W. W. Watson, Teacher, Bayton Mil. Acad., Chattanooga, Tenn.
- 1186—I. M. Coleman, Care of Y.M.C.A., Asheville, N. C.
- 1187—P. W. Sanders, Medical Student, Charleston, S. C.
- 1188—G. C. Wise, Teacher.
- 1189—G. F. Reeves, Medical Student, Charleston, S. C.
- 1190—Paul Workman, York, S. C.
- 1191—C. A. Witsell, in Bank, Walterboro, S. C.
- 1192—A. Bennett, New Orleans, La.
- 1193—W. F. Marshall, Cotton Oil Co., York, S. C.
- 1194—F. M. Wulbern, Lieut., U.S.M.C.
- 1195—Burrough Hill, Contractor, Laurens, S. C.
- 1196—T. R. Fishburne, Teacher, Castle Heights, Tenn.
- 1197—H. M. James, Willard Batteries, Columbia, S. C.
- 1198—M. O. Shealy, Teacher, Heath Springs, S. C.
- 1199—C. H. Hutchins, in Business, Spartanburg, S. C.
- 1200—J. P. Scovill, Athletic Director, Orangeburg, S. C.
- 1201—T. W. Gary, Sales Mgr., Willys-Overland Co., Bartow, Fla.
- 1202—W. M. Albergotti, Teacher, Greer, S. C.
- 1203—T. K. Ruff, in Business, Columbia, S. C.
- 1204—W. C. Langley, Liggett-Myers Tobacco Co., Manila, P. I.

CLASS OF 1922.

- 1205—L. B. Aull, Civil Engineer, Winnsboro, S. C.
- 1206—A. C. Phelps, Teacher, Mass. Inst. of Tech., Cambridge, Mass.
- 1207—W. . Tolleson, Southern Power Company, Charlotte, N. C.
- 1208—H. P. Weeks, Teacher, Orangeburg, S. C.
- 1209—O. H. Kollock, Engineer, State Highway Dept., Charleston, S. C.
- 1210—J. W. Gee, Merchant, Florence, S. C.

CLASS OF 1922—Continued.

REMARKS.

- 1211—A. S. Smith, Salesman, Augusta, Ga.
- 1212—T. M. Mayfield, Insurance, Greer, S. C.
- 1213—J. G. Wardlaw, Civil Engineer, Lexington, S. C.
- 1214—R. B. Rustin, Haverty Furniture Co., Charleston, S. C.
- 1215—A. B. Wagoner, Bengol Stove Works, Spring City, Pa.
- 1216—D. S. Asbill, Student, Medical College of S. C., Charleston, S. C.
- 1217—H. N. Heckle.
- 1218—J. W. Thompson, Teacher High School, Anderson, S. C.
- 1219—N. F. Evarts, Chester, W. Va.
- 1220—H. W. Crouch, Medical Student.
- 1221—T. M. Howell, S. C. Revenue Dept., Columbia, S. C.
- 1222—J. H. Knox, Teacher, Charlotte, N. C.
- 1223—G. N. Bailey, Engineering Work, Olmstead, Ky.
- 1224—B. F. Williamson, Darlington, S. C.
- 1225—J. B. Edgerton, Florence, S. C.
- 1226—L. S. Poulnot, Kerrison Dry Goods Co., Charleston, S. C.
- 1227—R. E. Barron, Merchant, Rock Hill, S. C.
- 1228—R. C. Jeter, Lieut., U.S.A.
- 1229—D. B. Alexander, Teacher, DeFuniak Springs, Fla.
- 1230—J. B. Weston, Engineer State Highway Dept., Charleston, S. C.
- 1231—E. E. Foster, Student, George Washington University, Washington, D. C.
- 1232—J. D. Frost, Jr., Teacher, High School, Spartanburg, S. C.
- 1233—E. L. Tolbert, Civil Engineer, Sou. Power Co., Fort Mill, S. C.
- 1234—J. B. Cope, Beaufort, S. C.
- 1235—S. D. Fortson, Lombard Iron Works, Augusta, Ga.
- 1236—W. H. McCorkle, Student Union Seminary, Richmond, Va.
- 1237—F. R. McAlister, Student Erskine College, Due West, S. C.
- 1238—J. R. Hanahan, Fertilizer Co., Charleston, S. C.
- 1239—H. B. Muckenfuss, Student, Y.M.C.A. College, Nashville, Tenn.
- 1240—D. W. Moore, Engineer, The Wilson Co., Greenville, S. C.
- 1241—J. E. Adams, Teacher, B.M.I., Greenwood, S. C.
- 1242—P. L. Langford, Engineer, U.G.I., Contracting Co., Philadelphia, Pa.
- 1243—C. B. Prentiss, Merchant, Charleston, S. C.
- 1244—E. W. Black, Bank Cashier, Walterboro, S. C.
- 1245—Eben Taylor, Minister, M. E. Church, McClellanville, S. C.
- 1246—C. F. Ende, Greenville, Texas.
- 1247—C. H. Metz, Standard Oil Co., Tampico, Mexico.
- 1248—R. C. Roberts, Insurance, Charleston, S. C.
- 1249—L. E. Diltz, Spartanburg, S. C.
- 1250—C. F. Klenke, Metropolitan Life Insurance Co., Atlanta, Ga.
- 1251—W. A. Leland, Civil Engineer, Florida.
- 1252—W. B. Jones, Medical Student, Emory Univ., Atlanta, Ga.
- 1253—J. W. Simmons, Business, Charleston, S. C.
- 1254—J. E. Rogers, Teacher, Murray Vocational School, Charleston, S. C.

- REMARKS.
- CLASS OF 1922—Continued.
- 1255—B. B. Kirkland, Kirkland Distributing Co., Columbia, S. C.
 1256—Q. D. Gasque, Teacher, Kingstree, S. C.
 1257—S. B. Antley, Teacher, Springfield, S. C.
 1258—S. M. Roper, Lawyer, Lincolnton, N. C.

- CLASS OF 1925.
- 1259—J. H. Wubern, Teacher, Charleston High School, Charleston, S. C.
 1260—W. S. Bradford, Teacher, Sewanee Mil. Acad., Sewanee, Tenn.
 1261—J. G. Harrison, Student, Columbia Univ., New York City.
 1262—B. R. Fuller, Engineer, 515 Pettigrew St., Greenville, S. C.
 1263—H. B. Baird, 57 Park Road, Belfast, Ireland.
 1264—R. M. Lyon, Bingham Mil. Acad., Asheville, N. C.
 1265—J. E. Carroll, Student Univ. of North Carolina, Chapel Hill, N. C.
 1266—R. M. Byrd, Asst. Prof. Chemistry, The Citadel, Charleston, S. C.
 1267—R. G. Sprott, Teacher, Staunton Mil. Acad., Staunton, Va.
 1268—J. A. L. Saunders, Teacher, Walterboro High School, Walterboro, S. C.
 1269—M. B. Jones, Southern Teachers Agency, Columbia, S. C.
 1270—E. T. Moore, Real Estate, Florida.
 1271—Carl Cullum, Southern Power Co., Box 80, Fort Mills, S. C.
 1272—D. H. Russell, Blackstone Mil. Acad., Blackstone, Va.
 1273—J. T. Bragdon, Teacher, Ala. Mil. Acad., Anniston, Ala.
 1274—J. D. Salmon, Lieut., U.S.A.
 1275—M. G. Ball, Chemist, Standard Oil, Charleston, S. C.
 1276—I. A. Mayfield, Insurance, Greer, S. C.
 1277—F. P. Mood, Box 1050, Roanoke, Va.
 1278—W. A. Zobel, Engineer Ingoll Ironworks, Birmingham, Ala.
 1279—J. B. Weston, Jr., Teacher, Effingson, S. C.
 1280—G. B. Harvin, Dept. of Physics, Purdue Univ., Lafayette, Ind.
 1281—C. E. Exum, Engineer, Miami, Fla.
 1282—W. H. Barnwell, Cotton Broker, Charleston, S. C.
 1283—Bush McLaughlin, Business, St. Matthews, S. C.
 1284—E. J. McGraw, Engineering, Orangeburg, S. C.
 1285—A. D. Tisdale, State Highway Dept., Orangeburg, S. C.
 1286—J. T. West, Jr., Paymaster, Ware Shoals.
 1287—J. T. Curry, Teacher, Murray Ind. School, Charleston, S. C.
 1288—B. B. Sheppard, Teacher, Staunton Mil. Acad., Staunton, Va.
 1289—A. W. Knight, Jr., Engineer, Gainesville, Fla.
 1290—G. E. White, Insurance, Charleston, S. C.
 1291—A. W. Bohem, Engineering, A.C.L. R.R., Charleston, S. C.
 1292—J. C. Harmon, Lieut., U.S.M.C., Box 61, Quantico, Va.
 1293—R. G. Padgett, Teacher, Williams High School, Williams, S. C.
 1294—H. L. Smith, Asst. Cashier, Walterboro, S. C.
 1295—J. C. Richardson, Teacher, Summerton, S. C.
 1296—J. Stubbs, Teacher, High School, Sally, S. C.
 1297—S. M. Shelton, Student, Sheffield Sci. School, Yale Univ., New Haven, Conn.
 1298—T. I. McGee, Merchant, Aug. W. Smith Co., Spartanburg, S. C.
 1299—R. L. Merchant, Columbia, S. C.

CLASS OF 1923—*Continued.*

REMARKS

- 1300—G. S. Douglas, Engineer, State Highway Dept., Sumter, S. C.
- 1301—E. M. Merrill, Engineer, State Highway Dept., Box 346,
- 1302—J. E. King, Jr., Lieut., U.S.M.C.
- 1303—T. J. Boyd, Jr., Teacher, High School, Orangeburg, S. C.
- 1304—J. M. Cantey, Jr., Student, Univ. of S. C., 1011 Bull St., Columbia, S. C.
- 1305—W. L. Hardeman, Engineer, State Highway Dept., Columbia, S. C.
- 1306—C. J. Howard, Jr., Darlington, S. C.
- 1307—C. S. Monteith, Law Student, Palmetto Bldg., Columbia, S. C.
- 1308—J. I. Benson, Engineer, Iverness, Fla.

CLASS OF 1924.

- 1309—Harry Cantey, Jr., Fellow in Engineering Univ. of N. C. Chapel Hill, N. C.
- 1310—J. L. Bull, Engineering, Delray, Fla.
- 1311—H. M. Holmes, Fellow in Engineering, Univ. of N. C., Chapel Hill, N. C.
- 1312—H. P. Gongawave, Student Med. College, Charleston, S. C.
- 1313—B. D. Kitchings, Commandant, McCallie School, Chattanooga,
- 1314—R. A. Benson, Engineering, Sanford, Fla.
Tenn.
- 1315—H. G. Gray, State Highway Dept., Columbia, S. C.
- 1316—J. A. Timmons, Engineer, Daytona Beach, Fla.
- 1317—J. T. Bennett, Jr., Cornell Univ., Ithaca, N. Y.
- 1318—J. L. Foster, American Bridge Co., Gary, Ind.
- 1319—J. B. Padgett, Fellow in Engineering, Univ. of N. C. Chapel Hill, N. C.
- 1320—John Woods, Tobacco, Sumter, S. C.
- 1321—E. P. Crouch, Engineering, Charleston, S. C.
- 1322—T. C. Perrin, U.S.M.C., Quantico, Va.
- 1323—T. C. Adams, State Highway Dept., McCormick, S. C.
- 1324—D. S. McAlister, Registrar, The Citadel, Charleston, S. C.
- 1325—T. D. Jennings, Stocks and Bonds, 11 Lamboll St., Charleston, S. C.
- 1326—W. E. Ball, Highway Engineer, 126 Goodwin St., Jacksonville, Fla.
- 1327—H. M. Corley, Comdt., Mt. Pleasant Mil. Acad., Mt. Pleasant, S. C.
- 1328—W. D. Rustin, Haverty Furniture Co., Birmingham, Ala.
- 1329—R. V. Royall, Jr., Engineering, Eustis, Fla.
- 1330—N. E. Yongue, Palmer College, DeTuniak Springs, Fla.
- 1331—W. W. Cone, B.M.I., Greenwood, S. C.
- 1332—Douglas Ruff, Business 1714 Main, Columbia, S. C.
- 1333—Walter Allen, Engineering, State Highway, Greenville, S. C.
- 1334—J. P. Hill, Lieut., U.S.A., Fort Screven, Ga.
- 1335—H. D. Padgett, Student, Atlanta Dentist College, Atlanta, Ga.
- 1336—Halstead Ellison, Texas Refining Co., New York City.
- 1337—W. P. Lemmond, American Bridge Co., Gary, Ind.
- 1338—Hugh Clark, 1726 Hampton St., Columbia, S. C.

CLASS OF 1924—*Continued*

- 1339—C. M. Thacker, Spartanburg High School, Spartanburg, S. C.
- 1340—C. P. Fishburne, Student N. C. State, Raleigh, N. C.
- 1341—E. W. Peterson, Teacher, Greenwood, S. C.
- 1342—J. S. Albeggotti, Student, Univ. of N. C., Chapel Hill, N. C.
- 1343—Marlborough Pegues, Cotton, Greenville, S. C.
- 1344—A. J. M. Wannamaker, Engineering Student, Cornell Univ., Ithacca, N. Y.
- 1345—D. G. Lucas, Charleston Eng. and Cont. Co., St. Augustine, Fla.
- 1346—R. E. Lee, Engineering, Florida.
- 1347—R. S. Hills, Teaching, Monte Carlo, Fla.
- 1348—L. W. Temple, Med. Student, Univ. of N. C., Chapel Hill, N. C.

CLASS OF 1923.

- 1349—R. H. Guthrie, Teaching, Chester, S. C.
- 1350—H. L. Garrett, Teaching, Harleyville, S. C.
- 1351—F. L. Barrett, Civil Engineer, Buckville, S. C.
- 1352—T. C. Green, U.S.M.C.
- 1353—W. M. Thompson, Engineering Student, Univ. of Pa., Philadelphia, Pa.
- 1354—W. T. Hudson, Fellow in Engineering, Univ. of S. C., Columbia, S. C.
- 1355—C. H. Lesene, Fellow in Engineering, Univ. of S. C., Columbia, S. C.
- 1356—M. A. Pittman, Teaching, Camden, S. C.
- 1357—T. L. Taylor, Fellow in Engineering, Univ. of S. C., Columbia, S. C.
- 1358—H. R. Thomas, Teaching, Darlington, S. C.
- 1359—C. M. Tatum, Teaching, Bessemer, N. C.
- 1360—Fred Sanders, Teaching.
- 1361—J. G. Owens, Fellow in Engineering, Univ. of S. C., Columbia, S. C.
- 1362—W. J. Bryson, Jr., Teaching, Greenbrier Mil. Acad., Lewisburg, W. Va.
- 1363—C. H. Jones, Student, Catholic Univ. Washington, D. C.
- 1364—E. G. Shuler, Cadillac Motor Co., Charleston, S. C.
- 1365—W. M. Ball, Student, Univ. of Pa., Philadelphia, Pa.
- 1366—W. W. Smoak, Jr., Teaching, Clover, S. C.
- 1367—W. G. Gordon, Engineer, Inverness, Fla.
- 1368—C. A. Watts, Engineer, West Palm Beach, Fla.
- 1369—A. A. Freeman, Engineer, Box 188, Inverness, Fla.
- 1370—R. G. Allen, State Highway Dept., Columbia, S. C.
- 1371—H. P. Dunlap, Teaching, McCallie School, Chattanooga, Tenn.
- 1372—F. D. Berry Sanitary and Drainage Commission, Charleston, S. C.
- 1373—F. W. Wagener, Jr., Student Univ. of N. C., Chapel Hill, N. C.
- 1374—H. T. Patten, Jr., Bell Tel. & Tel. Co., Seattle, Wash.
- 1375—E. N. McWhite, Fellow, Perdue Univ.
- 1376—J. C. Gary, Tobacco Salesman, Orangeburg, S. C.
- 1377—O. W. Lancaster, Teaching, Turbeville, S. C.
- 1378—J. D. Fuller, Southern Power Co., Charlotte, N. C.

CLASS OF 1925—*Continued.*

REMARKS.

- 1379—E. W. Marshall, Cotton, York, S. C.
- 1380—H. B. Lee, Medical College, Charleston, S. C.
- 1381—H. E. Wilson, Teacher, Blackstone Mil. Acad., Blackstone, Va.
